

STANLEY PARK JUNIOR SCHOOL

Child Protection and Safeguarding Procedures

Vision Statement

"We believe that every child and adult matters. At Stanley Park Junior School, we work together as staff, parents, carers and governors, in a fun, safe and inclusive environment. We strive to create a rich, varied and challenging curriculum that provides inspirational learning opportunities for all children as they aspire to become successful learners, confident individuals and responsible citizens with a sense of pride in themselves and their school"

Policy shared by Staff: September 2022

Policy agreed by Governing Board: October 2022

Next review date: September 2023

"THE WELFARE OF THE CHILD IS PARAMOUNT"

At Stanley Park Junior School the safety and welfare of our pupils is of the utmost importance ensuring that they are protected from maltreatment, impairment of their mental and physical health or development and that they are growing up in circumstances consistent with the provision of safe and effective care in order to achieve the best outcomes. We have created a culture of vigilance where pupils' welfare is actively promoted. Pupils are listened to and feel safe. We maintain an 'it could happen here' attitude.

We know children learn best when they are healthy, safe and secure, when their individual needs are met and when they have positive relationships with the people caring for them. We aim to have a school which is welcoming, safe and stimulating and where children are able to enjoy learning and grow in confidence. All necessary steps are taken to keep children safe and well.

Because of the day-to-day contact with children, our staff are trained to identify when a pupil may be at risk of harm and abuse and they report their concerns immediately. We have a duty to safeguard and promote the welfare of our pupils under the Education Act 2002 and Children Act 1989/2004 through identifying any child welfare concerns and taking action to address them in partnership with families and other agencies where appropriate.

Children are taught about safeguarding, including sensitive issues and online safety, through various teaching and learning opportunities, as part of providing a broad and balanced curriculum. We use the curriculum to ensure that children and young people understand how people with extreme views share these with others, especially using the internet. All children are taught to recognise when they are at risk and how to get help when they need it.

We are committed to ensuring that our pupils are taught a curriculum that aims to prepare them for life in modern Britain. Teaching the school's core values alongside the fundamental British Values supports quality teaching and learning, whilst making a positive contribution to the development of a fair, just and civil society.

Relevant issues for schools will be taught through Relationships Education (for all primary pupils) and Sex Education (for all secondary pupils) and Health Education (for all pupils in state-funded schools) which will become compulsory from September 2020.

At SPJS we are aware that there are local risks that impact our school. These include poor mental health, trauma, domestic abuse, theft and substance mis-use. We also address the need to know the highway code including use of scooters/e-scooters and bikes and travelling safely in the car.

In addition to our child protection policy and procedures, we have policies and procedures to cover the roles of staff, pupils and parents in respect of health and safety, anti-bullying, e-safety, positive handling, racism and discrimination. We also ensure that issues of child protection are raised with students through the Personal, Social and Health Education (PSHE) curriculum and the SRE curriculum. Our policy applies to all staff, governors and volunteers working in the school and pupils and parents are informed about this and our other policies in the school prospectus and on our website. There are a number of elements to our policy:

- Ensuring safe recruitment practice in checking the suitability of all our staff and volunteers to work with children including completion of risk assessments;
 - Raising awareness of child protection/safeguarding issues amongst all staff and volunteers and of what to do if they have concerns. This includes raising awareness of any current issues such as: Child abduction and community safety incidents; Child Criminal Exploitation (CCE); Child Sexual Exploitation (CSE); County lines; Children and the court system; Children missing from

education; Children with family members in prison; Cybercrime; Domestic abuse; Homelessness; Mental health; Modern Slavery; Preventing radicalisation; The Prevent duty; Channel; Sexual violence and sexual harassment between children in school; Serious Violence; So-called 'honour'-based abuse; FGM; Forced marriage (see 'Keeping Children Safe in Education' ,DfE, September 2022).

- Developing and implementing procedures for identifying and reporting cases, or suspected cases, of abuse;
- Developing effective links with relevant agencies and co-operating as required with their enquiries regarding child protection matters including attendance at case conferences and core group meetings;
- Establishing and maintaining a safe environment in which children feel secure and are encouraged to talk freely about anything that concerns them;
- Ensuring children know there are adults in the school who they can approach if they are worried about anything and have a safe space to talk to a trusted adult, where they can raise concerns
- Ensure that our procedures and expectations for identifying and reporting/recording cases, or suspected cases, of abuse to relevant agencies are robust;
- Ensure that volunteers are appropriately supervised;
- Ensure that the curriculum and other provision, including opportunities in the PSHE curriculum and SRE, develop and equip our pupils with the skills needed to feel safe and adopt safe practices to help them recognise risks and stay safe from abuse;
- Including opportunities for parents and families to develop awareness of keeping their children safe from harm;
- Supporting pupils who have been abused or may be at risk of harm in accordance with any agreed child protection plan;
- Ensuring we respond appropriately to any concern or allegation about a member of staff or volunteer; and
- Ensuring staff follow accepted "safe practice" principles when working with pupils.
- Ensuring that the school creates an environment where staff are encouraged and feel confident to self-refer, where, for example, they have found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.

If there are Child Protection concerns the **London Child Protection Child Protection Procedures** (London Safeguarding Children Board, 7th edition 2022) must be followed and available on the staff shared area as well as from the Designated Safeguarding Lead. It can also be found at www.londoncp.co.uk. The Sutton Local Safeguarding Children Partnership (LSCP) has adopted these procedures. This policy and procedure also accord with:

- HM Government guidance - "Safeguarding Children and Safer Recruitment in Education" (DfES 2006); and
- "Working Together to Safeguard Children" (HM Government, 2018 - amended 2020).
- 'Keeping Children Safe in Education' DfE 2022

If lower level concerns or needs (i.e. not child protection) are identified about a particular pupil the Early Help Assessment Tool should be used and can be found at earlyhelp@sutton.gov.uk

The following policies should also be considered:

Induction, SEN, Pupil Premium, Equality, Health and Safety, Safer Recruitment, Attendance, Behaviour, Anti-bullying, E-Safety, Sex and Relationship, PSHCE, Data Protection, Whistleblowing, Educational Visits and E-Safety (including the use of mobile devices).

IN THE EVENT OF AN EXTENDED SCHOOL CLOSURE DUE TO EXCEPTIONAL CIRCUMSTANCES

The way in which the school can operate in response to an extended school closure due to exceptional circumstances is fundamentally different to 'business as usual'. However, a number of important safeguarding principles will remain the same:

- the best interests of children must always continue to come first
- if anyone in a school has a safeguarding concern about any child they should continue to act and act immediately
- a DSL or deputy should be available
- it is essential that unsuitable people are not allowed to enter the children's workforce and/or gain access to children
- children should continue to be protected when they are online

This means that the school will continue to implement these Child Protection Policy and Procedures as we have always done.

We will also be mindful that an extended school closure will impact on our interaction with students.

As when the school is open, safeguarding concerns must be reported immediately - verbally in the first instance and then followed up with an e-mail. Do not assume that sending an e-mail means it has been read.

Staff will only use agreed platforms and work e-mail addresses to communicate with students (in line with the school's Remote Learning Policy). Any communications must be professional. Staff will continue to follow the school's Staff ICT Acceptable Use Policy.

DEFINITION

Safeguarding and promoting the welfare of pupils relates to any child or young person (i.e. under 18 years of age) who has suffered from, or **may be at risk of abuse** physical injury, neglect, emotional abuse or sexual abuse.

Safeguarding: is about every child

In relation to children and young people, safeguarding and promoting their welfare is defined in Keeping Children Safe in Education (2022) as:

- protecting children from maltreatment
- preventing impairment of children's mental or physical health or development
- ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- taking action to enable all children to have the best outcomes

Child Protection: relates to any child or young person (i.e. under 18 years of age) who has suffered from, or may be at risk of abuse: physical, emotional, sexual, neglect. (Please see Appendix A for full explanations)

All school staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another.

Abuse: form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue (also known as Child-on-Child Abuse) in education and all staff should be aware of it and of the school's policy and procedures for dealing with it

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing, and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate caregivers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Specific Safeguarding Issues

Safeguarding action may be needed to protect children and learners from specific safeguarding issues such as:

- Child abduction and community safety incidents;
- Child Criminal Exploitation (CCE);
- Child Sexual Exploitation (CSE);
- County lines;
- Children and the court system;
- Children missing from education;
- Children with family members in prison;
- Cybercrime;
- Domestic abuse;
- Homelessness;
- Mental health;
- Modern Slavery;
- Preventing radicalisation;
- The Prevent duty;
- Channel;
- Sexual violence and sexual harassment between children in school;
- Serious Violence;
- So-called 'honour'-based abuse;
- FGM;
- Child on child abuse
- Forced marriage

See appendix A for further safeguarding definitions

RECOGNITION/SIGNS OF ABUSE

The first indication of concern about a student's welfare is not necessarily the presence of a serious injury.

Many other signs, could be an indication of abuse, these may include:

- unexplained bruising, marks or signs of possible physical abuse or neglect on a pupil's body;
- Children whose behaviour changes - they may become aggressive, challenging, disruptive, withdrawn, or clingy, or they might have difficulty sleeping or start wetting the bed
- Children with consistently poor hygiene
- Children who make strong efforts to avoid specific family members or friends, without an obvious reason
- Children who don't want to change clothes in front of others or participate in physical activities
- Children who are having problems at school, for example, a sudden lack of concentration and learning or they appear to be tired and hungry
- Children with clothes which are ill-fitting and/or dirty
- Children who change friendships or have relationships with older individuals or groups
- Children who have a significant decline in performance
- Children who show signs of self-harm or a significant change in wellbeing
- Children who show signs of assault or unexplained injuries
- Children who have unexplained gifts or new possessions
- Children who talk about being left home alone, with inappropriate carers or with strangers

- Children who fail to reach developmental milestones, such as learning to speak or walk, late, with no medical reason
- Children who are regularly missing from school or home
- Children who are missing from education
- Children who are reluctant to go home after school
- Children with poor school attendance and punctuality, or who are consistently late being picked up
- Parents who are dismissive and non-responsive to practitioners' concerns
- Parents who collect their children from school when drunk, or under the influence of drugs
- Children who drink alcohol regularly from an early age
- Children who are concerned for younger siblings without explaining why
- Children who talk about running away
- Children who shy away from being touched or flinch at sudden movements.
- deterioration in children's general well-being, mental health or mood swings;
- remarks made by the pupil, another pupil, a parent or another adult;
- observations of the pupil's behaviour;
- unexplained/significant changes in the pupil's behaviour or personality;
- evidence of disturbance or explicit detail about abuse or possible abuse in a pupil 's play, drawing or writing;
- evidence of neglect, failure to thrive or exposure to unnecessary risks;
- regularly missing school or not taking part in education
- going missing for periods of time or coming home late
- misuse of information technology (e.g. Youth Produced Sexual Imagery - sexting, inappropriate comments on Social Media, texting, cyberbullying and online grooming);
- inappropriate behaviour displayed by other members of staff, or any other person working with the children, for example, inappropriate sexual comments, excessive 1:1 attention beyond the requirements of their usual role, or inappropriate sharing of image.
- information about the parent(s) / carer(s) of the child/young person or their home background.
- appearing with unexplained gifts or new possessions, associating with other young people involved in CSE or CCE, having older boyfriends or girlfriends, suffering from sexually transmitted infections
- drug and alcohol misuse
- displaying inappropriate sexualised behaviour

School staff must be aware that, where a child has a Special Educational Need or Disability (SEND), this may make them more vulnerable to abuse and may make them less able to communicate this. (See Section on SEND)

DESIGNATED SAFEGUARDING LEADS

Safeguarding is a standing item on all governing body meetings. The designated teacher and designated governor meet termly. There is a report of this meeting that is shared with the FGB.

Our designated safeguarding lead is: Mrs Amanda Lamy (Headteacher)

Our deputy designated safeguarding leads are: Mrs Julia Burrige and Mrs Julie Quigley. Lisa Sealy has also completed Safeguarding training to allow her to ensure all safeguarding records are copied and transferred to next school.

We also have two nominated governors for Child Protection and Looked After Children: Mrs Sara Rowe and Mrs Emma Clements (Deputy)

Any member of staff concerned about a pupil should tell the Designated Safeguarding Lead or, in her absence, the deputy Designated Safeguarding Lead, immediately. If they are unavailable, a senior member of staff should be advised.

The Designated Safeguarding Lead has a responsibility for Safeguarding and Child Protection - their key role is:

Managing referrals

The designated safeguarding lead (or deputies) will refer cases:

- of suspected abuse and neglect to the local authority children's social care as required and support staff who make referrals to local authority children's social care.
- to the Channel programme where there is a radicalisation concern as required and support staff who make referrals to the Channel programme.
- where a person is dismissed or left due to risk/harm to a child to the Disclosure and Barring Service as required; and
- where a crime may have been committed to the Police as required.
- [LSCP Sutton Threshold Guidance Oct 2020.pdf \(suttonlsc.org.uk\)](https://www.suttonlsc.org.uk/wp-content/uploads/2020/10/LSCP-Sutton-Threshold-Guidance-Oct-2020.pdf)

Working with others

The designated safeguarding lead (or deputies) will:

- act as a source of support, advice and expertise for all staff.
- act as a point of contact with the safeguarding partners.
- liaise with the Headteacher to inform them of issues- especially ongoing enquiries under section 47 of the Children Act 1989 and police investigations. This includes being aware of the requirement for children to have an Appropriate Adult (see section below).
- as required, liaise with the "case manager" and the local authority designated officer(s) (LADO) for child protection concerns in cases which concern a staff member.
- liaise with staff (especially teachers, pastoral support staff, school nurses, IT Technicians, senior mental health leads and special educational needs coordinators (SENCOs), on matters of safety and safeguarding and welfare (including online and digital safety) and when deciding whether to make a referral by liaising with relevant agencies so that children's needs are considered holistically.
- liaise with the senior mental health lead and, where available, the Mental Health Support Team, where safeguarding concerns are linked to mental health.
- promote supportive engagement with parents and/or carers in safeguarding and promoting the welfare of children, including where families may be facing challenging circumstances.
- work with the Headteacher and relevant strategic leads, taking lead responsibility for promoting educational outcomes by knowing the welfare, safeguarding and child protection issues that children in need are experiencing, or have experienced, and identifying the impact that these issues might be having on children's attendance, engagement, and achievement at school. This includes:

- ensuring that the school knows who within its cohort of children have or have had a social worker, understanding their academic progress and attainment, and maintaining a culture of high aspirations for this cohort; and,
- supporting teaching staff to provide additional academic support or reasonable adjustments to help children who have or have had a social worker reach their potential, recognising that even when statutory social care intervention has ended, there is still a lasting impact on children's educational outcomes.
- From June 2021, the Virtual Headteacher has a responsibility to promote the education of children who have a social worker and regular conversations should be had to share the relevant information and to enable every opportunity for the child to reach their full potential.

Information sharing and managing the child protection file

The designated safeguarding lead is responsible for ensuring that child protection files are kept up to date.

Information should be kept confidential and stored securely. Concerns and referrals will be kept in a separate child protection file for each child.

Records will include:

- a clear and comprehensive summary of the concern.
- details of how the concern was followed up and resolved.
- a note of any action taken, decisions reached and the outcome.

The file will only be accessed by those who need to see it.

Where children leave the school (including in year transfers) the designated safeguarding lead will ensure their child protection file is transferred to the new school or college as soon as possible, and within 5 days for an in-year transfer or within the first 5 days of the start of a new term. The child protection file will be transferred separately from the main student file, ensuring secure transit, and confirmation of receipt should be obtained.

Receiving schools and colleges should ensure key staff such as designated safeguarding leads and SENCOs or the named person with oversight for SEN in colleges, are aware as required.

In addition to the child protection file, the designated safeguarding lead will also consider if it would be appropriate to share any additional information with the new school or college in advance of a child leaving to help them put in place the right support to safeguard this child and to help the child thrive in the school or college.

Raising Awareness

The designated safeguarding lead (or deputies) will:

- ensure each member of staff has access to, and understands, the school's child protection policy and procedures, especially new and part-time staff.
- ensure the school's child protection policy is reviewed annually (as a minimum) and the procedures and implementation are updated and reviewed regularly, and work with governing bodies or proprietors regarding this.
- ensure the child protection policy is available publicly and parents and carers are aware of the fact that referrals about suspected abuse or neglect may be made and the role of the school in this.
- link with the safeguarding partner arrangements to make sure staff are aware of any training opportunities and the latest local policies on local safeguarding arrangements; and

- help promote educational outcomes by sharing the information about the welfare, safeguarding and child protection issues that children who have or have had a social worker are experiencing with teachers and school leadership staff.

Training, knowledge and skills

The designated safeguarding lead (and any deputies) will undergo training to provide them with the knowledge and skills required to carry out the role. The designated safeguarding lead will undertake Prevent awareness training. Training should provide designated safeguarding leads with a good understanding of their own role, how to identify, understand and respond to specific needs that can increase the vulnerability of children, as well as specific harms that can put children at risk, and the processes, procedures and responsibilities of other agencies, particularly children's social care, so they:

- understand the assessment process for providing early help and statutory intervention, including local criteria for action and local authority children's social care referral arrangements.
- have a working knowledge of how local authorities conduct a child protection case conference and a child protection review conference and be able to attend and contribute to these effectively when required to do so.
- understand the importance of the role the designated safeguarding lead has in providing information and support to children social care to safeguard and promote the welfare of children.
- understand the lasting impact that adversity and trauma can have, including on children's behaviour, mental health and wellbeing, and what is needed in responding to this in promoting educational outcomes.
- are alert to the specific needs of children in need, those with special educational needs and disabilities (SEND), those with relevant health conditions and young carers.
- understand the importance of information sharing, both within the school, and with the safeguarding partners, other agencies, organisations and practitioners.
- understand and support the school with regards to the requirements of the Prevent duty and are able to provide advice and support to staff on protecting children from the risk of radicalisation.
- are able to understand the unique risks associated with online safety and be confident that they have the relevant knowledge and up to date capability required to keep children safe whilst they are online at school or college.
- can recognise the additional risks that children with special educational needs and disabilities (SEND) face online, for example, from online bullying, grooming and radicalisation and are confident they have the capability to support children with SEND to stay safe online.
- obtain access to resources and attend any relevant or refresher training courses; and,
- encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, in any measures the school may put in place to protect them.

In addition to the formal training set out above, their knowledge and skills should be refreshed (this might be via e-bulletins, meeting other designated safeguarding leads, or simply taking time to read and digest safeguarding developments) at regular intervals, as required, and at least annually, to allow them to understand and keep up with any developments relevant to their role.

[Event List : Safeguarding \(event-booking.org\)](#)

[Bitesize Safeguarding Training Videos and Accompanying Slides - Cognus](#)

Providing support to staff

Training will support the designated safeguarding lead in developing expertise, so they can support and advise staff and help them feel confident on welfare, safeguarding and child protection matters. This includes specifically to:

- ensure that staff are supported during the referrals processes; and
- support staff to consider how safeguarding, welfare and educational outcomes are linked, including to inform the provision of academic and pastoral support.

Understanding the views of children

It is important that children feel heard and understood. Therefore, designated safeguarding leads should be supported in developing knowledge and skills to:

- encourage a culture of listening to children and taking account of their wishes and feelings, among all staff, and in any measures the school or college may put in place to protect them; and
- understand the difficulties that children may have in approaching staff about their circumstances and consider how to build trusted relationships which facilitate communication.

Holding and sharing information

The designated safeguarding lead will be equipped to:

- understand the importance of information sharing, both within the school, and with other schools and colleges on transfer including in-year and between primary and secondary education, and with the safeguarding partners, other agencies, organisations and practitioners.
- understand relevant data protection legislation and regulations, especially the Data Protection Act 2018 and the UK General Data Protection Regulation (UK GDPR); and
- be able to keep detailed, accurate, secure written records of concerns and referrals and understand the purpose of this record-keeping.
- **The Data Protection Act 2018 and UK GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.** This includes allowing practitioners to share information without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child in a timely manner.

If the DSL is not available, staff should speak to a member of the SLT/take advice from local children's social care and/or contact a member of the Education Safeguarding Team.

THE ROLE OF RESPONSIBLE ADULT

The Designated Safeguarding Lead (and deputy) are aware of the requirement for children to have an appropriate adult when in contact with Police officers who suspect them of an offence.

PACE states that anyone who appears to be under 18, shall, in the absence of clear evidence that they are older, be treated as a child for the purposes of this Code and any other Code.

PACE also states that if at any time an officer has any reason to suspect that a person of any age may be vulnerable, then that person is entitled to be accompanied by an appropriate adult at any point.

The Designated Safeguarding (or deputy) will communicate any vulnerabilities known by the school to any police officer who wishes to speak to a pupil about an offence they may suspect. This communication will be recorded **on CPOMS**

If having been informed of the vulnerabilities, the designated safeguarding lead (or deputy) does not feel that the officer is acting in accordance with PACE, they should ask to speak with a supervisor or contact 101 to escalate their concerns.

A person whom there are grounds to suspect of an offence must be cautioned¹ before questioned about an offence², or asked further questions if the answers they provide the grounds for suspicion, or when put to them the suspect's answers or silence, (i.e., failure or refusal to answer or answer satisfactorily) may be given in evidence to a court in a prosecution.

A Police Officer must not caution a juvenile or a vulnerable person unless the appropriate adult is present. If a child or a vulnerable person is cautioned in the absence of the appropriate adult, the caution must be repeated in the appropriate adult's presence.

The appropriate adult' means, in the case of a child:

1. the parent, guardian or, if the juvenile is in the care of a local authority or voluntary organisation, a person representing that authority or organisation.
2. a social worker of a local authority
3. failing these, some other responsible adult aged 18 or over who is not:
 - a. a police officer;
 - b. employed by the police;
 - c. under the direction or control of the chief officer of a police force; or
 - d. a person who provides services under contractual arrangements (but without being employed by the chief officer of a police force), to assist that force in relation to the discharge of its chief officer's functions,

Further information can be found in the Statutory guidance - [PACE Code C 2019](#).

<https://www.gov.uk/government/publications/pace-code-c-2019/pace-code-c-2019-accessible>

THE ROLE OF INDIVIDUAL STAFF

All Staff have read and understood KCSIE 2022 Part 1 and Appendix A.

The Teachers' Standards 2012 state that teachers (which includes Headteachers) should safeguard

¹ The police caution is: "You do not have to say anything. But it may harm your defence if you do not mention when questioned something which you later rely on in Court. Anything you do say may be given in evidence."

² A person need not be cautioned if questions are for other necessary purposes, e.g.: (a) solely to establish their identity or ownership of any vehicle; to obtain information in accordance with any relevant statutory requirement; in furtherance of the proper and effective conduct of a search, e.g. to determine the need to search in the exercise of powers of stop and search or to seek co-operation while carrying out a search; or to seek verification of a written record.

children's wellbeing and maintain public trust in the teaching profession as part of their professional duties.

All school staff have a responsibility to provide a safe environment in which children can learn. All staff should be prepared to identify children who may benefit from early help.

All staff must:

- Be alert to the possibility that any pupil, regardless of race, religion, culture, class or family background, could be the victim of abuse or neglect exploitation, FGM and Radicalisation/Extremism and must be familiar with all of these procedures as set out in KCSIE September 2022.
All members of school staff should be aware of systems within the school which support safeguarding and these will be explained to them as part of staff induction. This includes: the school's child protection policy (including the policy and procedures to deal with child on child abuse); the behaviour policy (including measures to prevent bullying, including cyberbullying, prejudice-based and discriminatory bullying); staff behaviour policy (sometimes called a code of conduct); safeguarding response to children who go missing from education; and the role of the designated safeguarding lead (including the identity of the designated safeguarding lead and any deputies)
- Follow procedures for reporting concerns and must be familiar with these procedures. Concern about a pupil must be discussed with the Designated Person immediately so that if necessary, a referral can be made without delay. All staff should be able to reassure victims that they are being taken seriously and that they will be supported and kept safe. A victim should never be given the impression that they are creating a problem by reporting abuse, sexual violence or sexual harassment. Nor should a victim ever be made to feel ashamed for making a report.
- Read and understand part 1 of Keeping Children Safe in Education (2022). 'Mechanisms' are in place to assist staff to understand and discharge their role and responsibilities.
- All members of school staff should be aware of their local early help process and understand their role in it.
- Only release children into the care of individuals who have been notified to the school and must ensure that children do not leave the premises unsupervised unless we have permission from their parents.
- Take all reasonable steps to prevent unauthorised persons entering the premises and must follow agreed procedures for checking identity of visitors.
- Understand the risks posed by adults or young people who use the internet to bully, groom or abuse children.
- Challenge senior leaders over any safeguarding concerns.
- Ensure that the Health and Well-being/PSHE curriculum is taught in full in order to give children information and strategies to help them keep themselves safe, and to teach them how to seek help if needed.
- Must attend regular safeguarding and child protection updates, as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. All staff will receive safeguarding and child protection (including online safety) updates (for example, via email, e-bulletins and staff meetings), as required, and at least annually, to provide them with relevant skills and knowledge to safeguard children effectively.
- Must have an awareness of the vulnerable children within their class (including LAC and Post-LAC)

The Designated Safeguarding Lead and other members of staff should not investigate child protection concerns. but gather information to support the disclosure/referral process. An investigation is carried out by the DSL, Children's Social Services and or the Police. However, if a pupil says something, it is vital to listen carefully, so you can record and report it accurately and pass onto the Designated Safeguarding Lead as soon as possible.

However, if a pupil/student says something, it is vital to listen carefully, and write it down so that records are used to report accurately. Records will also assist other members of staff who may have concerns.

Staff Support

We recognise that the stress on staff involved in any aspect of child protection work is considerable. The school will ensure that staff are properly supported. It is important that staff ensure that the Head teacher is aware of the impact any issues cause. The Headteacher will be responsible for ensuring that support from outside the school is sought where appropriate. NSPCC Helpline (Confidential advice) 0808 800 5000 help@nspcc.org.uk

THE ROLE OF GOVERNORS

The Governing Body has strategic leadership responsibility for the school's safeguarding arrangements and must ensure that they comply with their duties under legislation. They must ensure that policies, procedures, and training in the school is effective and always complies with the law.

The Governing Body will appoint a Safeguarding and Deputy to take leadership responsibility for their school's or college's safeguarding arrangements.

The Governing Body will ensure that all governors receive appropriate safeguarding and child protection (including online) training at induction. This training should equip them with the knowledge to provide strategic challenge to test and assure themselves that the safeguarding policies and procedures in place in the school are effective and support the delivery of a robust whole school approach to safeguarding. Their training should be regularly updated.

Whilst considering their responsibility to safeguard and promote the welfare of children and provide them with a safe environment in which to learn, the Governing Body will do all that they reasonably can to limit children's exposure to the above risks from the school's IT system. As part of this process, the Governing Body should ensure the school has appropriate filters and monitoring systems in place and regularly review their effectiveness. They should ensure that the leadership team and relevant staff have an awareness and understanding of the provisions in place and manage them effectively and know how to escalate concerns when identified. The Governing Body should consider the age range of the children, the number of children, how often they access the IT system and the proportionality of costs verses safeguarding risks.

DATA PROTECTION - INFORMATION AND CONFIDENTIALITY OF RECORDS

The Data Protection Act 2018 and GDPR do not prevent or limit the sharing of information for the purposes of keeping children safe. This includes allowing practitioners to share information without consent.

All staff must maintain records and obtain and share information (with parents, carers, other professionals working with the child, police, social services and Ofsted as appropriate) to ensure safe and efficient management of the school, and to help ensure the needs of all children are met. All staff must enable a regular two-way flow of information between parents and school.

Confidential information and records about children are held securely and only accessible and available to those who have a right or professional need to see them. The Head teacher is aware of responsibilities under the latest Data Protection Act in England, including those imposed under the General Data Protection Regulation (GDPR) passed by the European Union. As a school we believe that

protecting the data we hold about our children is a fundamental part of our safeguarding process and treats this information with as much importance as protecting the child themselves.

All staff understand the need to protect the privacy of the children in their care as well as the legal requirements that exist to ensure that information relating to the child is handled in a way to ensure confidentiality. Parents and carers are given access to all records about their child provided that no relevant exemptions (information which could cause harm to the child or any other individual) apply to their disclosure under the DPA.

The GDPR imposes more stringent requirements on entities that deal with people's personal data. In school, this applies to all personally identifiable information held on staff, children and parents. We are fully committed to ensuring that it upholds the new rights granted to a person under the GDPR. Parents and carers should be aware that there are legal requirements that supersede data protection regulations. The school is required to share data with certain agencies under legal obligations.

Our pupils and their parents have the right to expect all staff to deal sensitively and sympathetically with their situation. It is important that information is only available to those who need to know it. Parents and, where appropriate, pupils should be told their right to confidentiality may be breached if information comes to light suggesting possible harm to a child or young person. Safeguarding and Child protection issues relating to individual cases **must not** be subject to open discussion in the staff room or elsewhere in the school.

All personally identifiable information will be kept securely, following the school's obligations under the latest Data Protection Act in England and the General Data Protection Regulations (GDPR) set down by the European Union.

Members of staff should also remember not to promise to pupils to keep "secrets" (*see procedure below*).

WORKING WITH CHILDREN

We recognise that children who are abused, neglected, or who witness abuse or neglect may find it difficult to develop a sense of self-worth. They may feel helpless, humiliated and a sense of blame. The school may be the only stable, secure and predictable element in the lives of children at risk. When at school their behaviour may be challenging and defiant or they may be withdrawn. The school will endeavour to support the student through:

- the content of the curriculum;
- the school ethos which promotes a positive, supportive and secure environment and gives students a sense of being valued;
- the school behaviour policy which is aimed at supporting vulnerable students in the school; we will ensure that students know that some behaviour is unacceptable and that they are valued and not blamed for any abuse which has occurred;
- liaison with other agencies that support pupils such as social services, the child and adolescent mental health service, the borough school attendance service and the educational psychology service; and
- ensuring that, where a pupil with a child protection plan leaves the school, their information is transferred to any new school immediately and that the social worker is informed.

PUPILS WITH SPECIAL EDUCATIONAL NEEDS OR DISABILITIES (SEND) OR CERTAIN HEALTH CONDITIONS

The school recognises that pupils with SEND or certain health conditions can face additional safeguarding challenges and understands that further barriers may exist when determining abuse and neglect in this group of pupils.

Staff are aware that they may face additional safeguarding challenges because:

- there may be assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration;
- children can be more prone to peer group isolation or bullying than other children.
- the potential for children with SEND or certain medical conditions being disproportionately impacted by behaviours such as bullying, without outwardly showing any signs; and
- communication barriers and difficulties in managing or reporting these challenges

At SPJS we identify pupils who might need more support to be kept safe or to keep themselves safe.

We do this in the following ways

Extra pastoral support is considered for children with SEN and disabilities.

- Children will have a familiar adult to support with communication through simple language.
- Use of visual aids and sign language to support understanding where required
- Use of a familiar Speech and Language therapist to ensure that questioning and answers are put in a manner accessible to the child.
- Children are carefully monitored and observed to provide a full picture of their behaviour and mannerism so that any changes are noted, and a comparison can be made.
- The use of body maps, visuals and sign language are used to allow children to communicate their needs or concerns.
- The use of social stories is regularly used to support appropriate and inappropriate behaviour - such as bullying and keeping safe.
- Intervention groups teach children how to communicate and explain appropriate and inappropriate behaviour.

When required to use reasonable force in order to calm a situation, 'reasonable' means 'using no more force than is needed'. Individual plans for vulnerable children will be drawn up to reduce the use of force.

When reporting concerns or making referrals for pupils with SEND, the above factors will always be taken into consideration.

When managing a safeguarding issue relating to a pupil with SEND, the DSL will liaise with the school's SENCO, as well as the pupil's family where appropriate, to ensure that the pupil's needs are effectively met.

RECRUITMENT, SELECTION, TRAINING AND SUPERVISION OF STAFF AND VOLUNTEERS

Safer Recruitment training is available to all relevant staff and governors who are involved in the recruitment process.

A record is kept of staff training - type of training and dates which is recorded alongside the single central register (SCR)

The SCR should be checked regularly by a member of the Senior Leadership Team. Governors must also have assurance that these checks are regularly being carried out and can choose to assist in this process.

The safe recruitment of staff in schools is the first step to safeguarding and promoting the welfare of the children in education.

In our recruitment and selection of staff and volunteers we will at all times adhere to the Government guidance contained within "*Working Together to Safeguard Children*" (HM Government 2018-Updated July 2022 and '*Keeping Children Safe in Education* (DfE 2022).

In particular we will ensure that:

- for good practice, our interview panel includes at least one member who has completed safer recruitment training,
- that we always follow up gaps in previous employment,
- that we always require specific references from employers for the last five years and
- that for all posts, paid and voluntary, the appropriate Disclosure and Barring Service (DBS) information has been received
- In addition to obtaining the DBS certificate, anyone who is employed to teach will undergo an additional check to ensure that they are not prohibited from teaching.
- We consider carrying out online checks for shortlisted candidates and have updated our Safer Recruitment Policy to reflect this.

As a school, we are aware of and take notice of 'Disqualification by Association' guidance (July 2018). From 1st September 2018, schools will no longer have to ask staff questions about cautions or convictions of someone living or working in their household.

We keep a central record (SCR) of all staff with the date and outcome of their DBS check so at all times staff, pupils and parents can be assured this has been done.

What is not known from a DBS check is whether a person has a child placed under a care order, whether they have had a childcare registration cancelled or refused for any reason other than non-payment of fees or whether there have been any relevant overseas convictions.

All staff will have to complete an annual self-declaration stating that they have not had anything that would compromise their DBS.

It must be noted that 'relationships and associations' that staff have in school and outside (including online), may have an implication for the safeguarding of children in the school. Where this is the case, the member of staff must speak to the school.

If you do have something to declare or your circumstances change, please seek advice from the Head teacher. For more information, please refer to KCSIE (2022).

Parents and volunteers who regularly support in school are given guidance and offered training with regard their roles within school. This includes awareness of safeguarding arrangements within school and information on whom to inform if they have any concerns with regard any children that they work with.

Induction training is mandatory and is given to all staff including:

- the Safeguarding and Child Protection policy and procedures;
- the Behaviour Policy;
- the Staff Code of Conduct;
- the safeguarding response to children who go missing from education; and
- the role of the designated safeguarding lead (including the identity of the designated safeguarding lead and any deputies).

All staff will receive regular safeguarding and child protection updates as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively. All staff also receive training in data protection matters to ensure that they are kept up to date with their duties and obligations to protect information about the children in the school.

Safer Recruitment training is available to all relevant staff and governors who are involved in the recruitment process.

A record is kept of staff training - type of training and dates which is recorded alongside the single central register (SCR)

Please see safer recruitment and induction policy for full details.

VISITORS, CONTRACTORS AND OUTSIDE SERVICES

All visitors are subject to signing in procedures and are given a blue or yellow lanyard and badge to ensure quick and easy identification. (During Covid-19 the school is restricting the number of visitors to school)

We expect all contractors providing services within the school whose staff have access to school premises to comply with this policy and the attached procedure, as well as the staff code of conduct.. The contractor or individual must agree to this in writing.

In particular we require any contractor or organisation delivering a service on behalf of the school or using our premises to provide evidence they adhere to the above requirements in terms of recruitment, selection, training and supervision of their staff and any volunteers, in particular DBS information.

Contractors engaging in regulated activity will require an enhanced DBS certificate (including barred list information). For all other contractors who are not engaging in regulated activity, but whose work provides them with an opportunity for regular contact with children, an enhanced DBS check will be required (not including barred list information). Any person coming into school without a DBS for a 'one off' visit will be escorted around the school by a member of SPJS staff. Under no circumstances will a contractor in respect of whom no checks have been obtained be allowed to work unsupervised or engage in regulated activity.

If a contractor working at a school is self-employed, the school will consider obtaining the DBS check, as self-employed people are not able to make an application directly to the DBS on their own account.

The identity of contractors and their staff will be checked on arrival at the school.

This policy and procedure will also apply to any organisation using school facilities. They must agree to this in writing. Organisations hiring school premises to run any activities outside of school time are responsible for ensuring that they comply with safeguarding requirements. See SPJS Lettings Policy

The governing body will seek assurance that the body concerned has appropriate safeguarding and child protection policies and procedures in place (including inspecting these as needed); and ensure that there are arrangements in place to liaise with the school on these matters where appropriate. The governing body will also ensure safeguarding requirements are included in any transfer of control agreement (i.e., lease or hire agreement), as a condition of use and occupation of the premises; and that failure to comply with this would lead to termination of the agreement. E.g they have received relevant safeguarding training and that appropriate safeguarding and child protection policies and procedures in place (including inspecting these as needed); and ensure that there are arrangements in place to liaise with the school on these matters where appropriate.

SPORTS CLUBS AND EXTRA CURRICULAR CLUBS

Clubs and extracurricular activities hosted by external bodies, e.g. charities or companies, will work in collaboration with the school to effectively safeguard pupils and adhere to local safeguarding arrangements.

Paid and volunteer staff running sports clubs and extracurricular activities are aware of their safeguarding responsibilities and promote the welfare of pupils.

Paid and volunteer staff understand how they should respond to child protection concerns and how to make a referral to CFCS or the police, if necessary. All national governing bodies of sport that receive funding from either Sport England or UK Sport, must aim to meet the Standards for Safeguarding and Protecting Children in Sport.

SITE SECURITY

All people on the site have to adhere to the guidelines within this policy. Laxity can cause potential safeguarding issues to arise. Therefore:

- Field gates should be locked at playtimes and lunchtimes (when not using the field supervised).
- All Exit Doors should be closed and locked to prevent intrusion.
- The school will not request DBS checks and barred list checks, or ask to see DBS certificates, for visitors (for example children's relatives or other visitors attending a sports day). The Headteacher will use her professional judgment about the need to escort or supervise visitors.
- For visitors who are attend in a professional capacity, their ID will be checked and assurance will be sought that the visitor has had the appropriate DBS check (or that the visitor's employers have confirmed that their staff have appropriate checks).
- Visitors must only enter through the main entrance and after signing in at the office. They should be given a visitors' badge on entry.
- Children will only be allowed home with adults with parental responsibility or confirmed permission.
- Children should never be allowed to leave school alone during school hours, and if collected by an adult, signed out.
- **Should a child leave the school premises without permission then staff have been informed never to chase after a child, but rather to report immediately to the office. Then parents and police will be informed of the circumstances.**

CHILD PROTECTION PROCEDURE

If concern arises about the welfare of a pupil/student the following procedure must be followed.

DO NOT DELAY

- Tell the Designated Safeguarding Lead as soon as you can - it may be necessary to interrupt a lesson to do this - **do not leave notes in the Designated Safeguarding Lead's pigeonhole** as they may not get back to check their post until the end of the day once the student has gone home;
- early referral gives more time to offer help to the student and family before the situation becomes severe or serious;
- when the matter is already severe or serious, early referral gives more time for others to protect the student;

- the Designated Safeguarding Lead may consult with the Children's First Contact Service (CFCS) for advice and guidance.

MAKE WRITTEN NOTES

- At the earliest opportunity make a written record of your concerns and upload it to CPOMS- record facts accurately and be clear when you are expressing an opinion and the basis for this - these notes will help to ensure accuracy in recalling events later - **If you make any paper notes these should be legible, signed and dated and with the time and then uploaded onto CPOMS**
 - Any original notes must be given to the Designated Safeguarding Lead as soon as possible and kept, even if you are using an online reporting system.
- Do not take photographs of any physical injuries and also do not use audio to record disclosures, instead record injuries on a body map and record what the child said on CPOMS.

CONCERN FROM SOMETHING THE CHILD SAYS

In Summary

Receive – listen to what the student wants to tell you do not ask questions or interrogate. Consider interpreting services if English is a second language.

Remain calm - if you are shocked, upset or angry the student will sense this and this could stop them from saying more.

Reassure - that they are believed, and their concern will be followed up

React - ask open questions and then speak to the DSL

Record - make a written record of the conversation and pass it to the DSL

Refer - via the DSL and using the local referral process

Do not promise to keep it secret - tell the pupil/student you cannot keep the matter secret and will need to take advice from someone who can help.

It is important to remember that students may not find it easy to tell staff about their abuse verbally. Children can show signs or act in ways that they hope adults will notice and react to. In some cases, the victim may not make a direct report. For example, a friend may make a report, or a member of school or college staff may overhear a conversation that suggests a child has been harmed or a child's own behaviour might indicate that something is wrong. **If staff have any concerns about a child's welfare, they should act on them immediately rather than wait to be told.**

REFERRAL PROCESS

Any member of staff may make a referral to the Children's First Contact Service (CFCS) or the police. Any member of staff can make a referral but they should consult with the designated safeguarding lead wherever possible.

Normal practice would be for the referral to be completed by the Designated Safeguarding Lead or a deputy. However, referral must not be delayed - if the Designated Safeguarding Lead or a deputy is not available a senior member of staff should be advised and the referral made to the Children's First Contact Service (CFCS). Referrals are made via an online form: Follow this link:

https://docs.google.com/forms/d/e/1FAIpQLSePLWJRIKTC3AmrZGi6bC_gQZ00L7KYgZcS5wckrFm4ok8bg/viewform

If staff are concerned that the child or family involved have been exposed to radicalisation or extremist behaviour, then when making a referral, they will request a referral to the national PREVENT strategy (Counterterrorism and Security Act 2015).

Phone numbers are displayed near all phones in the school to enable any staff members to phone organisations to receive support/guidance i.e Children's First Contact Services, CAMHS and Prevent and Hate Crime Officer.

REMEMBER

- if in doubt, consult;
- do not ignore concerns, even if these are vague;
- your first responsibility is to the pupil; and
- if you need help or support to manage your own feelings, this can be provided.

CONTACT WITH THE FAMILY

Contact with the family **should always** be discussed with the Designated Safeguarding Lead, who may consult the Children's First Contact Service social care team or the Education Safeguarding Children's Adviser before any further action is taken.

In cases where a minor physical injury causes concern, it is usual school practice to discuss this with the parent or carer. If the explanation suggests a non-accidental cause for the injury (or a failure to protect the pupil from harm), the parent or carer should be informed that the matter must be referred to Children & Family Social Work Service via the Children's First Contact Service (CFCS).

In cases of possible neglect or emotional abuse, the concern may have built up over a period of time. There may have been discussion previously between school staff and the family about sources of help (e.g. the Children and Family Social Work Service), but if concerns persist, the Designated Safeguarding Lead will need to refer to the Children's First Contact Service and will normally advise the family of this unless specifically told otherwise.

In cases where there are suspicions of sexual abuse, the Designated Safeguarding Lead will seek immediate advice from the Children's First Contact Service before discussing this with the family.
[Sutton LSCP CSA protocol 2020.pdf \(suttonlscp.org.uk\)](https://www.suttontrust.com/wp-content/uploads/2020/03/Sutton_LSCP_CSA_protocol_2020.pdf)

RECORDING

- All records relating to child welfare concerns will be kept on 'CPOMs' and any relevant paperwork will be kept secure by the Designated Safeguarding Lead - a chronology of concern should be kept;
- where there are concerns about a pupil, the pupil's file indicates this with a red sticker, making the files easily distinguishable from others where there are no concerns and our electronic files have an appropriate "flag" to indicate there are concerns about the pupil;
- we will keep written records of any concerns about pupils, even where there is no need to refer the matter immediately;
- information from records will only be accessed by staff on a "need to know" basis;

- key staff will need to know when a pupil is subject to a Child Protection Plan so they can monitor the pupil's welfare;
- records relating to the pupil's welfare will remain on the pupil's child protection file and the file will be kept secure as long as the pupil is at the school;
- when the pupil leaves the school, the new school will be advised in writing that our records contain information about child protection concerns even where these are no longer current. Records should be sent in a way that is lawful in terms of the requirements of the Data Protection Act.
- Records will be kept until the child is 18 years old by primary schools and 25 years old for secondary schools.

CONCERN ABOUT A STAFF MEMBER, CARER OR VOLUNTEER

We recognise the possibility that adults working in the school may harm children. Staff and governors are committed to taking allegations seriously - whistleblowing (reporting concerns about an adult in schools' behaviour) will immediately be investigated.

- Allegations or concerns about a member of staff, worker or volunteer must immediately be notified to the head teacher (or the chair of governors if the concern is about the head teacher) This guidance should be followed where it is alleged that anyone working in the school including supply teachers, volunteers and contractors has:
 - behaved in a way that has harmed a child, or may have harmed a child and/or;
 - possibly committed a criminal offence against or related to a child and/or;
 - behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; and/or
 - behaved or may have behaved in a way that indicates they may not be suitable to work with children.
- The person to whom an allegation is first reported should take the matter seriously and keep an open mind. S/he should not investigate or ask leading questions if seeking clarification; it is important not to make assumptions. Confidentiality should not be promised, and the person should be advised that the concern will be shared on a 'need to know' basis only.
- Actions to be taken include making an immediate written record of the allegation using the informant's words - including time, date and place where the alleged incident took place, brief details of what happened, what was said and who was present. This record should be signed, dated and immediately passed on to the Head teacher/Head of School.
- the head teacher (or chair of governors) will always consult the Local Authority Designated Officer (LADO) (contactable through the Children and Family Service);
- Following consultation, the head teacher (or chair of governors) in agreement with the LADO will decide on appropriate action:
 - ❖ immediate referral to the Children's First Contact Service/LADO
 - ❖ consideration of disciplinary proceedings
 - ❖ consider a senior strategy meeting
- it is important to bear in mind that although the concern may relate to an individual pupil, other pupils may also be at risk.
- The school will promote an open and transparent culture in which all concerns about all adults working in or on behalf of the school (including supply teachers, volunteers and contractors) are dealt with promptly and appropriately. This should encourage an open and transparent culture; enable the school to identify concerning, problematic or inappropriate behaviour early; minimise the risk of abuse; and ensure that adults working in or on behalf of the school are clear about

professional boundaries and act within these boundaries, and in accordance with the ethos and values of the school

Allegations or concerns about an adult working in the school whether as a teacher, supply teacher, other staff, volunteers or contractors

- We recognise the possibility that adults working in the school may harm children, including governors, volunteers, supply teachers and agency staff. Any concerns or allegations about the conduct of other adults in the school should be taken to the headteacher without delay; any concerns about the headteacher should go to the Chair of Governors who can be contacted by emailing them/phoning them. See whistleblowing policy for contact details. Emma Clements eclements4@suttonmail.org Julie Smith jsmith364@suttonmail.org
- Any concerns about the conduct of a member of staff, supply teachers, volunteers or contractors should be reported to the headteacher Concerns may come from various sources, for example, a suspicion; complaint; or disclosure made by a child, parent or other adult within or outside of the organisation; or as a result of vetting checks undertaken.

The headteacher has to decide whether the concern is an allegation or low-level concern. The term 'low-level' concern does not mean that it is insignificant, it means that the behaviour towards a child does not meet the threshold for referral to the Local Authority Designated Officer (LADO) (see below).

Allegations

It is an allegation if the person* has:

- behaved in a way that has harmed a child, or may have harmed a child and/or;
- possibly committed a criminal offence against or related to a child and/or;
- behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; and/or
- behaved or may have behaved in a way that indicates they may not be suitable to work with children (also includes behaviour outside the school).

(*Person could be anyone working in the school or a college that provides education for children under 18 years of age, including supply teachers, volunteers and contractors.)

Allegations should be reported to the LADO 'without delay'.

Before contacting the LADO, schools and colleges should conduct basic enquiries in line with local procedures to establish the facts to help them determine whether there is any foundation to the allegation, being careful not to jeopardise any future police investigation.

The LADO's role is not to investigate the allegation, but to ensure that an appropriate investigation is carried out, whether that is by the police, children's social care, the school or college, or a combination of these.

Low-level Concerns

Concerns may be graded Low-level if the concern does not meet the criteria for an allegation; and the person* has acted in a way that is inconsistent with the staff code of conduct, including inappropriate conduct outside of work. Example behaviours include, but are not limited to:

- being over friendly with children.

- having favourites.
- taking photographs of children on their mobile phone.
- engaging with a child on a one-to-one basis in a secluded area or behind a closed door; or,
- using inappropriate sexualised, intimidating, or offensive language.

If the Headteacher is in any doubt as to whether the information which has been shared about a member of staff as a low-level concern in fact meets the harm threshold, they should consult with their LADO.

If the concern has been raised via a third party, the headteacher should collect as much evidence as possible by speaking:

- directly to the person who raised the concern unless it has been raised anonymously.
- to the individual involved and any witnesses.

Reports about supply staff and contractors should be notified to their employers, so any potential patterns of inappropriate behaviour can be identified.

Staff should be encouraged and feel confident to self-refer, where, for example, they have found themselves in a situation which could be misinterpreted, might appear compromising to others, and/or on reflection they believe they have behaved in such a way that they consider falls below the expected professional standards.

Low-level concerns should be recorded in writing, including:

- name* of individual sharing their concerns
- details of the concern
- context in which the concern arose
- action taken

(* if the individual wishes to remain anonymous then that should be respected as far as reasonably possible)

Records must be kept confidential, held securely and comply with the Data Protection Act 2018. Schools and colleges should decide how long they retain such information, but it is recommended that it is kept at least until the individual leaves their employment.

Records should be reviewed so that potential patterns of concerning, problematic or inappropriate behaviour can be identified.

If a concerning pattern of behaviour is identified and now meets the criteria for an allegation, then the matter should be referred to the LADO.

The records' review might identify that there are wider cultural issues within the school or college that enabled the behaviour to occur. This might mean that policies or processes could be revised or extra training delivered to minimise the risk of it happening again.

- The procedures in 'Keeping Children Safe in Education' (DfE, September 2022), 'Working Together to Safeguard Children' (HM Government, July 2018 - amended 2022) and the Sutton Local Safeguarding Children Partnership procedures will be followed in all such cases

When appropriate (*see guidance above*), consideration will be given to referral of a member of staff to the DBS for consideration of the case.

If a member of staff believes a reported allegation or concern is not being dealt with appropriately, they should report the matter to the Local Authority Designated Officer (LADO) to give support and

direction on how to proceed.

Whilst the school is not the employer of supply or agency staff, they should ensure allegations are dealt with properly. The school will usually take the lead in any investigation because agencies do not have direct access to children or other school staff, so they will not be able to collect the facts or liaise with the LADO.

- when appropriate (*see guidance above*), consideration will be given to referral of a member of staff to the DBS for consideration of the case.
- If a member of staff believes a reported allegation or concern is not being dealt with appropriately, they should report the matter to the Local Authority Designated Officer (LADO) to give support and direction on how to proceed.

Further guidance can also be sought from the Children's First Contact Service. Phone numbers are located near every external phone at SPJS.

- [LADO Protocol 2021.pdf \(suttonlsc.org.uk\)](https://www.suttonlsc.org.uk/LADO_Protocol_2021.pdf)

ALLEGATIONS AGAINST OTHER CHILDREN

- If an allegation of abuse is made against other children by children then this must be reported immediately, in accordance with this policy. This will then be reported to the Children's First Contact Service (CFCS) by a designated person or deputy designated person
- Abuse or concerns about a risk of abuse or harm by other children is subject to the same safeguarding procedures as in respect of children being abused by an adult;
- professionals responding should be alert to the risk a child may pose to children other than any "current" victim; and
- children or young people who harm others are likely to have considerable needs themselves (e.g. they may have been subjected to abuse, witnessed domestic violence or committed criminal offences)

WHISTLEBLOWING

All staff and volunteers should feel able to raise concerns about poor or unsafe practice and potential failures in the school's safeguarding regime and know that such concerns will be taken seriously by the Senior Leadership Team.

Where there are concerns about the way that safeguarding is carried out in the school, staff should refer to the Whistle-blowing Policy.

A whistleblowing disclosure must be about something that affects the general public such as:

- a criminal offence has been committed, is being committed or is likely to be committed
- a legal obligation has been breached
- there has been a miscarriage of justice
- the health or safety of any individual has been endangered
- the environment has been damaged
- information about any of the above has been concealed.

Where a staff member feels unable to raise an issue with their employer, or feels that their genuine concerns are not being addressed, other whistleblowing channels may be open to them:

The NSPCC whistleblowing helpline is available as an alternative route for staff that do not feel able to raise concerns regarding child protection failures internally or have concerns about the way a concern is being handled by their school.

Staff can call 0800 028 0285 - line is available from 8:00am to 8:00pm, Monday to Friday or email: help@nspcc.org.uk.

REQUESTS FOR ASSISTANCE BY OTHER AGENCIES

- School staff have a legal duty to assist local authority Children and Family Social Care Services or the Police when they are making enquiries about the welfare of pupils;
- information about a pupil/student must therefore be shared on a "need to know" basis with other agencies;
- when telephone requests for information are received, **always** maintain security by checking the telephone number listing for the caller and calling back to a switchboard number **before** giving information or confirming the student is on the school roll;
- always advise the designated person about such requests for information;
- requests for attendance at meetings about individual pupils (e.g. child protection conferences) should be notified to the designated person, who will arrange preparation of a report and attendance at the meeting;
- reports should contain information about the child's:
 - academic progress
 - attendance
 - behaviour
 - relationships with children and adults
 - family
 - any other relevant matter;
- reports should be objective, distinguishing between fact, observation, allegation and opinion;
- unless you specify otherwise, reports will normally be made available to the pupil's family.

PUPILS/STUDENTS SUBJECT TO A CHILD PROTECTION PLAN

- the school will be told by the relevant local authority when a pupil is subject to a Child Protection Plan whether the London Borough of Sutton or another local authority;
- the name of the key social worker must be clearly recorded on the pupil's record;
- the school will participate fully in the work of Core Groups for these pupils to assist with the objectives of the Child Protection Plan for the pupil/student;
- when a pupil is subject to a Child Protection Plan, the school will report all unexplained absences even if only of a day;
- when a pupil is subject to a Child Protection Plan, the school will report all behavioural changes or other concerns to the key social worker; and
- when a pupil who is subject to a Child Protection Plan leaves the school, all the child protection information will be transferred to any new school.

CHILDREN MISSING IN EDUCATION (CME) AND ELECTIVE HOME EDUCATION (EHE)

Knowing where children are during school hours is an extremely important aspect of Safeguarding. Missing school can be an indicator of abuse and neglect and may also raise concerns about others safeguarding issues, including the criminal exploitation of children.

We monitor attendance carefully and address poor or irregular attendance without delay. (See attendance policy)

We will always follow up with parents/carers when pupils are not at school. This means we need to have at least two up to date contacts numbers for parents/carers. Parents should remember to update the school as soon as possible if the numbers change.

Please note this is different to children who leave the school premises. If this happens, call the police, and follow the child where possible. Do not chase.

In response to the guidance in Keeping Children Safe in Education (2022) the school has:

1. Staff who understand what to do when children do not attend regularly
2. Appropriate policies, procedures and responses for pupils who go missing from education (especially on repeat occasions).
3. Staff who know the signs and triggers for travelling to conflict zones as well as an awareness of breast-ironing and honour-based abuse (including FGM and forced marriage).
4. Procedures to inform the local authority when we plan to take pupils off-roll when they:
 - a. leave school to be home educated
 - b. move away from the school's location
 - c. remain medically unfit beyond compulsory school age
 - d. are in custody for four months or more (and will not return to school afterwards); or
 - e. are permanently excluded

We will ensure that pupils who are expected to attend the school but fail to take up the place will be referred to the local authority.

When children are added to the admissions register, the school must record the expected start date of the pupil. If the young person does not arrive on the start date, the school should contact the local authority at the earliest opportunity. For admissions to the school, apart from at the "start of the school's youngest year", schools are required to notify the local authority "within five days when a pupil's name is added to the admission register and provide all the information held within the admission register about the pupil".

When a pupil leaves the school, the admission register must also record:

- the name of the pupil's new school; and
- the expected start date at the new school

The school must inform the local authority and supply the following information:

- the full name of the pupil;
- the full name and address of any parent with whom the pupil lives;
- at least two contact telephone numbers for the child;
- if applicable, the full name and address of the parent with whom the pupil is going to live, and the date the pupil is expected to start living there;
- the name of pupil's destination school and the pupil's expected start date there, if applicable; and
- the grounds under which the pupil's name is to be deleted from the admission register.

If this information is not provided by the parent or carer, then a Child Missing in Education (CME) form is completed and sent to the local authority.

[Children Missing Education - Cognus](#)

Elective Home Education

When a parent/carer expresses their intention to remove a child from school with a view to educating at home, we will make it clear that this is not a decision we would ever recommend. We will liaise with other professionals to coordinate further discussion with parents/carers where possible. This will be particularly important where a child has SEND, is vulnerable, and/or has a social worker. Where the decision to home educate raises safeguarding concerns the DSL (or deputies) will seek further advice from Children's Social Care.

[Elective Home Education - Cognus](#)

We have a separate policy for attendance of pupils.

LOOKED AFTER CHILDREN

The designated lead staff and governors are also responsible for Looked after Children. All looked after children have a Personal Education Plan (PEP), which is part of the child's care plan. This is reviewed termly. Advice and support are available through the virtual school and virtual head teacher.

[Sutton Virtual School - Cognus](#)

PREVIOUSLY LOOKED AFTER CHILDREN

The designated lead staff and governors are also responsible for Previously Looked-After Children.

A previously looked-after child is one who is no longer looked after in England and Wales because s/he is the subject of an adoption, special guardianship or child arrangements order which includes arrangements relating to with whom the child is to live, or when the child is to live with any person, or has been adopted from 'state care' outside England and Wales; and a child is in 'state care' outside England and Wales if s/he is in the care of or accommodated by a public authority, a religious organisation or any other organisation the sole or main purpose of which is to benefit society.

Post-LAC support arrangements are distinct to those for LAC and are responsive to the needs of the child and family using the appropriate school support systems which will include PPG but not the PEP process.

We aim to help raise previously looked-after children's parents' and guardians' awareness of the PP+ and other support for previously looked-after-children - this includes encouraging parents of eligible previously looked-after-children to tell the school if their child is eligible to attract PP+ funding; and play a key part in decisions on how the PP+ is used to support previously looked after children.

As a school we recognise that not all Post-LAC are underachieving, while some may be underachieving and not eligible for funding. We plan to use our funding creatively to support any individual in which any area of under-performance is evident.

See Pupil Premium Policy for further information.

[Sutton Virtual School - Cognus](#)

INTERNET FILTERING AND MONITORING

Access to the internet in school is carefully monitored. This is made clear to all users through acceptable use policies.

Our Internet provider is: Virgin Media through LGfL

Internet access is filtered in three groups:

- Staff
- Students
- Staff authenticated

Senior leaders and Governors do checks termly on the filtering systems in school to ensure that web filtering is active and at a good level.

When children use the school's network to access the internet, they are protected from inappropriate content by our filtering and monitoring systems although we are mindful not to "over block" which may lead to unreasonable restrictions as to what pupils can be taught regarding online teaching. Online safety education is embedded within the curriculum and pupils are taught how to use online technology safely and responsibly every year.

At this school, the internet connection is provided LGfL. This means we have a dedicated and secure, schoolsafe connection that is protected with firewalls and multiple layers of security, including a web filtering system called WebScreen 3, which is made specifically to protect children in schools. You can read more about why this system is appropriate on the UK Safer Internet Centre's appropriate filtering submission pages [here](#).

There are three types of appropriate monitoring identified by the Safer Internet Centre. These are:

1. Physical monitoring (adult supervision in the classroom, at all times)
2. Internet and web access
3. Active/Pro-active technology monitoring services

Please read our online safety policy for full details (this can be found on our website)

ONLINE SAFETY

As part of a broad and balanced curriculum, all pupils will be made aware of online risks and taught how to stay safe online. Children are specifically taught about safe use of the internet. Our policy is not to block everything and only allow children access to certain sites - they need to be taught what is acceptable and what is unacceptable, and what to do when they feel 'uncomfortable'.

Through training, all staff members will be made aware of the following:

- Pupil attitudes and behaviours which may indicate they are at risk of potential harm online

The procedure to follow when they have a concern regarding a pupil's online activity

The school will ensure that the use of filtering and monitoring systems does not cause 'over blocking' which may lead to unreasonable restrictions as to what pupils can be taught regarding online teaching.

The use of mobile phones by staff and pupils is closely monitored by the school, in accordance with the **E-Safety Policy**

The school will ensure that the use of filtering and monitoring systems does not cause "over blocking" which may lead to.

As schools increasingly work online, it is essential that children are safeguarded from potentially harmful and inappropriate online material, including when they are online at home. Appropriate filters and appropriate monitoring systems should be in place. Where children are being asked to learn online at home, the Department for Education has provided advice to support schools and colleges to do so safely. At SPJS we disseminate this information to parents.

Safeguarding and remote education (DfE, Updated March 2021)

Mobile phone and camera safety

Staff members **will not use** mobile phone or cameras for personal use when pupils are present.

Staff may use mobile phones on school premises outside of working hours when no pupils are present.

Staff may use mobile phones in the staffroom during breaks and non-contact time.

Mobile phones will be safely stored and in silent mode whilst pupils are present.

Staff will use their professional judgement in emergency situations.

Staff must take school mobile phones on trips. Personal mobile phones can be taken on trips, but they must only be used in emergencies and should not be used when pupils are present unless agreed with a member of the leadership team. On residential trips, personal phones can be used to upload photographs to twitter. All photos must be deleted off phones when returning to school.

The sending of inappropriate messages or images from mobile devices is strictly prohibited.

Staff who do not adhere to this policy will face disciplinary action.

ICT technicians and the **e-safety lead** will review and authorise any downloadable apps - no apps or programmes will be downloaded without express permission from an **ICT technician** or the **e-safety lead**.

The school will adhere to the terms of the **E-Safety Policy** at all times.

Photographs and videos of pupils will be carefully planned before any activity with particular regard to consent and adhering to the school's **Data Protection Policy**.

The DPO will oversee the planning of any events where photographs and videos will be taken.

Where photographs and videos will involve LAC pupils, adopted pupils, or pupils for whom there are security concerns, the **head teacher** will liaise with the **DSL** to determine the steps involved.

The DSL will, in known cases of a pupil who is a LAC or who has been adopted, liaise with the pupil's social worker, carers or adoptive parents to assess the needs and risks associated with the pupil.

The school will adhere to its **Digital Use /E-Safety policy** at all times.

Staff will report any concerns about another staff member's use of mobile phones to the DSL, following the procedures outlined in the Child Protection and Safeguarding Policy and the **Allegations of Abuse Against Staff Policy**.

Every family can go through difficult or challenging times at some point during their lives. If you are aware of a family that is experiencing problems, they may require support to help them to deal with difficult situations and make things better. Early Help services and support should be offered as soon as a problem or difficulty starts. This is to stop things from getting worse, and to make sure that the family gets the help that they need. The Early Help Assessment Tool (EHAT) is used to find out about the family so that we can understand the difficulties that they may be experiencing. The EHAT is used when a family would like support to help them with a difficulty; when a professional working with a family recognises that they may require extra support; when a family have lots of professionals working with them and services and information needs to be organised to help make things clearer for them; where the needs of the family are unknown or unmet. The EHAT is entirely consent based and the family can decide at any point that they no longer wish to engage with the process. An EHAT is confidential except where there is a risk of serious harm to a child or young person.

Early Help means providing support as soon as a problem emerges at any point in a child's life, from the foundation years through to the teenage years. In the first instance staff should discuss early help requirements with the designated safeguarding lead. Staff may be required to support other agencies and professionals in an early help assessment.

Any child may benefit from early help, but all staff should be particularly alert to the potential need for early help for a child who:

- Is disabled or has certain health conditions has specific additional needs
- Has special educational needs (whether or not they have a statutory Education, Health and Care Plan)
- has a mental health need.
- Is a young carer
- Is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups
- Is frequently missing/goes missing from care or from home
- Is at risk of modern slavery, trafficking or sexual or criminal exploitation
- Is at risk of being radicalised or exploited
- Is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse
- Is misusing drugs or alcohol themselves
- Has returned home to their family from care
- is at risk of 'honour'-based abuse such as Female Genital Mutilation or Forced Marriage.
- Is a privately fostered child; and
- is persistently absent from education, including persistent absences for part of the school day.
- Early Help for families and professionals - Sutton Council

CHILD'S NEED FOR A SOCIAL WORKER

Local authorities should share the fact a child has a social worker, and the designated safeguarding lead should hold and use this information so that decisions can be made in the best interests of the child's safety, welfare and educational outcomes. This should be considered as a matter of routine. There are clear powers to share this information under existing duties on both local authorities and schools and colleges to safeguard and promote the welfare of children.

Where children need a social worker, this should inform decisions about safeguarding (for example,

responding to unauthorised absence or missing education where there are known safeguarding risks) and about promoting welfare (for example, considering the provision of pastoral and/or academic support, alongside action by statutory services).

MENTAL HEALTH

We aim to promote positive mental health and wellbeing for our whole school community; pupils, staff, parents and careers, and recognise how important mental health and emotional wellbeing is. We recognise that children's mental health is a crucial factor in their overall wellbeing and can affect their learning and achievement. Through a whole-school approach, we actively seek to promote emotional health and wellbeing by helping pupils to understand their feelings and the feelings of others.

Our role in school is to help our pupils to succeed and reach their potential by supporting them to be resilient and mentally healthy. We also have a role to ensure that pupils learn about what they can do to maintain positive mental health, what affects their mental health, how they can help reduce the stigma surrounding mental health issues and where they can go if they need help and support.

All staff should also be aware that mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. If staff have a mental health concern about a child that is also a safeguarding concern, immediate action should be taken by speaking to the designated safeguarding lead or a deputy.

Only appropriately trained professionals should attempt to make a diagnosis of a mental health problem. Staff, however, are well placed to observe children day-to-day and identify those whose behavior suggests that they may be experiencing a mental health problem or be at risk of developing one.

Where children have suffered abuse and neglect, or other potentially traumatic adverse childhood experiences, this can have a lasting impact throughout childhood.

Schools have an important role to play in supporting the mental health and wellbeing of their pupils.

Mental health problems can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation. Governing bodies and proprietors should ensure they have clear systems and processes in place for identifying possible mental health problems, including routes to escalate and clear referral and accountability systems.

Schools can access a range of advice to help them identify children in need of extra mental health support, this includes working with external agencies.

If you have a concern regarding the Mental Health of a child, contact your Designated Safeguarding Lead and SENCO immediately to enable the required support to be put in place as soon as possible.

See: Appendix E for further definitions

GENERAL ISSUES

All staff must observe the above policy and procedure at all times. They will be reviewed annually and as required in line with changes in local LSCP or national guidance.

MONITORING AND EVALUATION

This policy will be monitored by *Governors* in particular safeguarding working group. Safeguarding will be on all school and *Committee* agendas and any *Committee* can input into this policy. There are two *Safeguarding Governors* who will be involved in monitoring this policy. Safeguarding and Child Protection will form part of the termly *Headteacher's Report* to *Governors*.

All staff must observe the above policy and procedure at all times. They will be reviewed annually and as required in line with changes in local (LSCP) or national guidance

Appendix A Explanation of Terms. This is to be read in conjunction with KCSIE 2022 Annex B

Types of abuse and neglect

All school staff should be aware that abuse, neglect and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases multiple issues will overlap with one another.

Abuse: form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children.

Physical abuse: a form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Please note:

A Mongolian blue spot is a type of birthmark that is present at birth or appears soon afterwards, either single or multiple in number.

It is flat, blue-grey in colour and can vary from a very dark blue to a lighter grey. The colour is usually the same over the whole birthmark, with no lighter or darker areas as is sometimes seen in brown birthmarks. Mongolian blue spots are can vary in size, but most are a few centimetres across.

They can appear anywhere on the body but are most common at the base of the spine, the buttocks or on the lower back.

If in doubt speak to the Designated Safeguarding Lead.

Emotional abuse: the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. It may involve conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person. It may include not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate. It may feature age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability as well as overprotection and limitation of exploration and learning or preventing the child from participating in normal social interaction. It may involve seeing or hearing the ill-treatment of another. It may involve serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Sexual abuse: involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving violence, whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse. Sexual abuse can take place online, and technology can be used to facilitate offline abuse. Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children. The sexual abuse of children by other children is a specific safeguarding issue (also known as Child-on-child abuse) in education and all staff should be aware of it and of the school's policy and procedures for dealing with it

Neglect: the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy, for example, as a result of maternal substance abuse. Once a child is born, neglect may involve a parent or carer failing to: provide adequate food, clothing and shelter (including exclusion from home or abandonment); protect a child from physical and emotional harm or danger; ensure adequate supervision (including the use of inadequate caregivers); or ensure access to appropriate medical care or treatment. It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

[LSCB NeglectPracticeToolkit_A4.pdf \(suttonlscp.org.uk\)](#)

[Experiences of neglect by Howarth's classifications - A3 Poster.pdf \(suttonlscp.org.uk\)](#)

Adverse Childhood Experiences (ACEs)

1 in 3 diagnosed mental health conditions in adulthood are directly related to adverse childhood experiences. ACEs can include maltreatment, violence and coercion, adjustment, prejudice, family adversity, inhumane treatment, adult responsibilities and bereavement and survivorship. If you have witnessed or experienced any of the following before the age of 18 you have suffered an adverse childhood experience: domestic violence, sexual abuse, alcohol abuse, physical abuse, parental separation, drug abuse, verbal abuse, mental ill-health or imprisonment.

Protective factors:

1. Positive and supportive family
2. Safe relationships with peers
3. Access to a supportive community
4. Ability to regulate emotions
5. Acquisition of problem-solving skills
6. Compassionate, professional response
7. Early intervention from services
8. Trauma-informed systems

When talking to someone who has suffered an ACE, don't ask, what is wrong with you? But, what has happened to you?

FGM

For the purpose of this policy, FGM is defined as the partial or total removal of the external female genitalia, or any other injury to the female genital organs.

FGM is considered a form of abuse in the UK and is illegal.

All staff will be alert to the possibility of a girl being at risk of FGM, or already having suffered FGM. If staff members are worried about someone who is at risk of FGM or who has been a victim of FGM, they are required to share this information with social care and/or the police.

Teaching staff are **legally required** to report to the police any discovery, whether through disclosure by the victim or visual evidence, of FGM on a girl under the age of 18. Teachers failing to report such cases will face disciplinary action.

NB. The above does not apply to any suspected or at-risk cases, nor if the individual is over the age of 18. In such cases, local safeguarding procedures will be followed.

There are a range of potential indicators that a pupil may be at risk of FGM. While individually they may not indicate risk, if two or more indicators are present, this could signal

Victims of FGM are most likely to come from communities that are known to adopt this practice. It is important to note that the pupil may not yet be aware of the practice or that it may be conducted on them, so staff will be sensitive when broaching the subject.

Indicators that may show a heightened risk of FGM include the following:

The socio-economic position of the family and their level of integration into UK society

Any girl with a mother or sister who has been subjected to FGM

Any girl withdrawn from PSHE

Indicators that may show FGM could take place soon include the following:

When a female family elder is visiting from a country of origin

A girl may confide that she is to have a 'special procedure' or a ceremony to 'become a woman'

A girl may request help from a teacher if she is aware or suspects that she is at immediate risk

A girl, or her family member, may talk about a long holiday to her country of origin or another country where the practice is prevalent

Staff will be vigilant to the signs that FGM has already taken place so that help can be offered, enquiries can be made to protect others, and criminal investigations can begin.

Indicators that FGM may have already taken place include the following:

Difficulty walking, sitting or standing

Spending longer than normal in the bathroom or toilet

Spending long periods of time away from a classroom during the day with bladder or menstrual problems

Prolonged or repeated absences from school followed by withdrawal or depression

Reluctance to undergo normal medical examinations

Asking for help, but not being explicit about the problem due to embarrassment or fear

Teachers will not examine pupils, and so it is rare that they will see any visual evidence, but they will report to the police where an act of FGM appears to have been carried out. Unless the teacher has a good reason not to, they should also consider and discuss any such case with the DSL and involve CSCS as appropriate.

FGM is also included in the definition of 'honour-based' violence (HBV), which involves crimes that have been committed to defend the honour of the family and/or community, alongside forced marriage and breast ironing.

So-called 'honour-based' abuse (including FGM and forced marriage)

So-called honour-based abuse encompasses crimes which have been committed to protect or defend the honour of the family and/or the community, including Female Genital Mutilation (FGM), forced marriage, and practices such as breast ironing. All forms of so-called honour-based violence are abuse (regardless of the motivation) and should be handled and escalated as such. Where staff are concerned that a child might be at risk of honour-based abuse, they must contact the Designated Safeguarding Lead as a matter of urgency.

Bullying

Bullying may be defined as deliberately hurtful behaviour, usually repeated over a period of time, where it is difficult for those bullied to defend themselves. It can take many forms, but the four main types of bullying are: physical (e.g. hitting, kicking, theft), verbal (e.g. racist or homophobic remarks, threats, name calling), social (e.g. isolating an individual from the activities, lying and spreading rumours, damaging someone's reputation and carrying out acts behind a person's back to cause humiliation) and cyber (e.g. sending abusive or hurtful texts, emails, posts, images or videos, deliberately excluding others online, spreading gossip or rumours and imitating others online or using their log-in details)

Breast Ironing

Breast Ironing is practiced in some African countries, notably Cameroon. Girls aged between 9 and 15 have hot pestles, stones or other implements rubbed on their developing breasts to stop them growing further. Breast Ironing is usually carried out by mothers or other women to protect girls from men. It is believed that the reason they carry out this procedure is to reduce the risk of sexual harassment, rape, kidnap and forced marriage. Indicators that Breast Ironing has been carried out are chest pains or other discomfort, changes in behaviour and fear of undressing.

All forms of Honour Based Violence (HBV) are forms of abuse and will be treated and escalated as such.

Staff will be alert to the signs of HBV, including concerns that a child is at risk of HBV, or has already suffered from HBV, and will consult with the DSL who will activate local safeguarding procedures if concerns arise.

Child sexual exploitation (CSE) and Criminal Exploitation (CCE)

For the purpose of this policy, "child sexual exploitation" and Criminal Exploitation are forms of abuse and both occur where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual or criminal activity. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors, including gender, sexual identity, cognitive ability, physical strength, status and access to economic or other resources. In some cases, the abuse will be in exchange for something the victim needs or wants and/or will be to the financial benefit or

other advantage (such as increased status). Of the perpetrator or facilitator. The abuse can be perpetrated by individuals or groups.

Child Sexual Exploitation (CSE) and Criminal Exploitation (CCE)

Both CSE and CCE are forms of abuse and both occur where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual or criminal activity. Whilst age may be the most obvious, this power imbalance can also be due to a range of other factors, including gender, sexual identity, cognitive ability, physical strength, status, and access to economic or other resources. In some cases, the abuse will be in exchange for something the victim needs or wants and/or will be to the financial benefit or other advantage (such as increased status). Of the perpetrator or facilitator. The abuse can be perpetrated by individuals or groups.

Child Sexual Exploitation (CSE)

CSE occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology. CSE can affect any child or young person (male or female) under the age of 18 years, including 16- and 17-year olds who can legally consent to have sex. It can include both contact (penetrative and non-penetrative acts) and non-contact sexual activity and may occur without the child or young person's immediate knowledge (e.g. through others copying videos or images they have created and posted on social media).

Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into criminal activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial or other advantage of the perpetrator or facilitator and/or (c) through violence or the threat of violence. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

CCE can include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country (county lines), forced to shoplift or pickpocket, or to threaten other young people.

Homelessness

The DSL and deputy(s) will be aware of the contact details and referral routes in to the Local Housing Authority so that concerns over homelessness can be raised as early as possible.

Indicators that a family may be at risk of homelessness include the following:

Household debt

Rent arrears

Domestic abuse

Anti-social behaviour

Any mention of a family moving home because "they have to"

Referrals to the Local Housing Authority **do not replace referrals to social care** where a child is being harmed or at risk of harm.

For 16- and 17-year-olds, homelessness may not be family-based and referrals to social care will be made as necessary where concerns are raised.

Domestic Abuse

In April 2021, the Domestic Abuse Act 2021 received Royal Assent and introduced a statutory definition for the first time.

Domestic abuse can encompass a wide range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited to, psychological, physical, sexual, financial, or emotional. Children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships (teenage relationship abuse). All of which can have a detrimental and long-term impact on their health, well-being, development, and ability to learn.

Definition:

The Domestic Abuse Act 2021 (Part 1) defines domestic abuse as any of the following behaviours, either as a pattern of behaviour, or as a single incident, between two people over the age of 16, who are 'personally connected' to each other:

- (a) physical or sexual abuse;
- (b) violent or threatening behaviour;
- (c) controlling or coercive behaviour;
- (d) economic abuse (adverse effect of the victim to acquire, use or maintain money or other property; or obtain goods or services); and
- (e) psychological, emotional or other abuse.

People are 'personally connected' when they are, or have been married to each other or civil partners; or have agreed to marry or become civil partners. If the two people have been in an intimate relationship with each other, have shared parental responsibility for the same child, or they are relatives.

The definition of Domestic Abuse applies to children if they see or hear, or experience the effects of, the abuse; and they are related to the abusive person.

(The definition can be found here: <https://www.legislation.gov.uk/ukpga/2021/17/part/1/enacted>)

Types of domestic abuse include intimate partner violence, abuse by family members, teenage relationship abuse and child/adolescent to parent violence and abuse. Anyone can be a victim of domestic abuse, regardless of sexual identity, age, ethnicity, socio-economic status, sexuality or background and domestic abuse can take place inside or outside of the home.

Advice on identifying children who are affected by domestic abuse and how they can be helped is available at:

Transform Sutton - 020 8092 7569 / transformsutton@cranstoun.org.uk

Not Alone in Sutton

National Domestic Abuse Helpline:

Refuge runs the National Domestic Abuse Helpline, which can be called free of charge and in confidence, 24 hours a day on 0808 2000 247. Its website provides guidance and support for potential victims, as well as those who are worried about friends and loved ones. It also has a form through which a safe time from the team for a call can be booked.

Operation Encompass:

Operation Encompass operates in the majority of police forces across England. It helps police and schools work together to provide emotional and practical help to children. The system ensures that when police are called to an incident of domestic abuse, where there are children in the household who have experienced the domestic incident, the police will inform the key adult (usually the designated safeguarding lead) in school before the child or children arrive at school the following day. This ensures that the school has up to date relevant information about the child's circumstances and can enable support to be given to the child according to their needs. Police forces not signed up to operation encompass will have their own arrangements in place.

County lines criminal activity

County lines is a term used to describe gangs and organised criminal networks involved in exporting illegal drugs (primarily crack cocaine and heroin) into one or more importing areas (within the UK), using dedicated mobile phone lines or other form of 'deal line'.

Exploitation is an integral part of the county lines offending model with children and vulnerable adults exploited to move (and store) drugs and money. Offenders will often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. Children can be targeted and recruited into county lines in a number of locations including schools, further and higher educational institutions, pupil referral units special educational needs schools, children's homes and care homes. Children are often recruited to move drugs and money between locations.

Pupils with family members in prison

Pupils with a family member in prison will be offered pastoral support as necessary.

They will receive a copy of '[Are you a young person with a family member in prison](#)' from Action for Prisoners' Families where appropriate and allowed the opportunity to discuss questions and concerns.

Pupils required to give evidence in court

Pupils required to give evidence in criminal courts, either for crimes committed against them or crimes they have witnessed, will be offered appropriate pastoral support.

Primary schools only Pupils will also be provided with the booklet '[Going to Court](#)' from HM Courts and Tribunals Service (HMCTS) where appropriate and allowed the opportunity to discuss questions and concerns.

Preventing radicalisation and extremism

For the purpose of this policy, "radicalisation" refers to the process by which a person comes to support terrorism and extremist ideologies.

Radicalisation and extremism Under section of the Counter Terrorism and Security Act 2015, schools have a duty to 'prevent people being drawn into terrorism'. This has become known as the 'Prevent Duty'. Where staff are concerned that children and young people are developing extremist views or show signs of becoming radicalised, they should discuss this with the Designated Safeguarding Lead.

Children and young people are vulnerable to extremist ideology and radicalisation. Similar to protecting children from other forms of harms and abuse, protecting children from this risk should be part of a schools' or colleges' safeguarding approach.

Terrorism: is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

Protecting children from the risk of radicalisation is part of the school's wider safeguarding duties.

The school will actively assess the risk of pupils being drawn into terrorism.

Staff will be alert to changes in pupils' behaviour which could indicate that they may be in need of help or protection.

Staff will use their professional judgement to identify pupils who may be at risk of radicalisation and act appropriately, which may include making a referral to the Channel programme. The school will work with local safeguarding arrangements as appropriate.

The school will ensure that they engage with parents and families, as they are in a key position to spot signs of radicalisation. In doing so, the school will assist and advise family members who raise concerns and provide information for support mechanisms.

Any concerns over radicalisation will be discussed with a child's parents, unless the school has reason to believe that the child would be placed at risk as a result.

Training

The DSL and all staff will undertake Prevent awareness training to be able to provide advice and support to other staff on how to protect children against the risk of radicalisation. The DSL will hold formal training sessions with all members of staff to ensure they are aware of the risk indicators and their duties regarding preventing radicalisation.

[LSCB GUIDANCE PREVENT DUTY 2016.pdf \(suttonlscp.org.uk\)](#)

Risk indicators of vulnerable pupils

Indicators of an identity crisis include the following:

Distancing themselves from their cultural/religious heritage

- Uncomfortable with their place in society
- Indicators of a personal crisis include the following:
 - Family tensions
 - A sense of isolation
 - Low self-esteem
 - Disassociation from existing friendship groups
 - Searching for answers to questions about identity, faith and belonging
- Indicators of vulnerability through personal circumstances includes the following:
 - Migration
 - Local community tensions
 - Events affecting their country or region of origin

- Alienation from UK values
- A sense of grievance triggered by personal experience of racism or discrimination
- Indicators of vulnerability through unmet aspirations include the following:
 - Perceptions of injustice
 - Feelings of failure
 - Rejection of civic life
- Indicators of vulnerability through criminality:
 - Experiences of dealing with the police
 - Involvement with criminal groups

Making a judgement

When making a judgement, staff will ask themselves the following questions:

Does the pupil have access to extremist influences?

Does the pupil access the internet for the purposes of extremist activities (e.g. using closed network groups, accessing or distributing extremist material, contacting such groups covertly using Skype)?

Is there a reason to believe that the pupil has been, or is likely to be, involved with extremist organisations?

Is the pupil known to have possessed, or be actively seeking, extremist literature/other media likely to incite racial or religious hatred?

Does the pupil sympathise with or support illegal/illicit groups?

Does the pupil support groups with links to extremist activity?

Has the pupil encountered peer, social, family or faith group rejection?

Is there evidence of extremist ideological, political or religious influence on the pupil?

Have international events in areas of conflict and civil unrest had a noticeable impact on the pupil?

Has there been a significant shift in the pupil's outward appearance that suggests a new social, political or religious influence?

Has the pupil come into conflict with family over religious beliefs, lifestyle or dress choices?

Does the pupil vocally support terrorist attacks, either verbally or in their written work?

Has the pupil witnessed or been the victim of racial or religious hate crimes?

Is there a pattern of regular or extended travel within the UK?

Has the pupil travelled for extended periods of time to international locations?

Has the pupil employed any methods to disguise their identity?

Does the pupil have experience of poverty, disadvantage, discrimination or social exclusion?

Does the pupil display a lack of affinity or understanding for others?

Is the pupil the victim of social isolation?

Does the pupil demonstrate a simplistic or flawed understanding of religion or politics?

Is the pupil a foreign national or refugee, or awaiting a decision on their/their family's immigration status?

Does the pupil have insecure, conflicted or absent family relationships?

Has the pupil experienced any trauma in their lives, particularly trauma associated with war or sectarian conflict?

Is there evidence that a significant adult or other person in the pupil's life has extremist views or sympathies?

Critical indicators include where the pupil is:

In contact with extremist recruiters.
Articulating support for extremist causes or leaders.
Accessing extremist websites.
Possessing extremist literature.
Using extremist narratives and a global ideology to explain personal disadvantage.
Justifying the use of violence to solve societal issues.
Joining extremist organisations.
Making significant changes to their appearance and/or behaviour.

Any member of staff who identifies such concerns, because of observed behaviour or reports of conversations, will report these to the DSL.

The DSL will consider whether a situation may be so serious that an emergency response is required. In this situation, a 999 call will be made; however, concerns are most likely to require a police investigation as part of the Channel programme, in the first instance.

Channel programme

Safeguarding children is a key role for both the school and the LA, which is implemented through the use of the Channel programme. This service shall be used where a vulnerable pupil is at risk of being involved in terrorist activities.

In cases where the school believes a pupil is potentially at serious risk of being radicalised, the head-teacher or DSL will contact the Channel programme.

The DSL will also support any staff making referrals to the Channel programme.

The Channel programme ensures that vulnerable children and adults of any faith, ethnicity or background, receive support before their vulnerabilities are exploited by those that would want them to embrace terrorism, and before they become involved in criminal terrorist-related activity.

The programme identifies individuals at risk, assesses the extent of that risk, and develops the most appropriate support plan for the individuals concerned, with multi-agency cooperation and support from the school.

The delivery of the Channel programme may often overlap with the implementation of the LA's or school's wider safeguarding duty, especially where vulnerabilities have been identified that require intervention from CSCS, or where the individual is already known to CSCS.

Extremist speakers

The school prevents speakers who may promote extremist views from using the school premises.

Building children's resilience

The school will:

Provide a safe environment for debating controversial issues.
Promote fundamental British Values, alongside pupils' spiritual, moral, social and cultural development.
Allow pupils time to explore sensitive and controversial issues.

Provide pupils with the knowledge and skills to understand and manage potentially difficult situations, recognise risk, make safe choices and recognise where pressure from others threatens their personal safety and wellbeing. Equip pupils to explore political and social issues critically, weigh evidence, debate, and make reasoned arguments. Teach pupils about how democracy, government and law making/enforcement occur. Teach pupils about mutual respect and understanding for the diverse national, regional, religious and ethnic identities of the UK.

Resources

The school will utilise the following resources when preventing radicalisation:

Local safeguarding arrangements
Local police (contacted via 101 for non-emergencies)
The DfE's dedicated helpline (020 7340 7264)
The Channel awareness programme
The [Educate Against Hate](#) website

Up - skirting Voyeurism (Offences) Act 2019

The Voyeurism (Offences) Act, which is commonly known as the Upskirting Act, came into force on 12th April 2019. Upskirting typically involves taking a picture under a person's clothing (not necessarily a skirt) without their permission or knowledge, with the intention of viewing their genitals or buttocks (with or without underwear) to obtain sexual gratification, or cause the victim humiliation, distress or alarm. It is a criminal offence. Anyone of any gender, can be a victim.

Private fostering

The phrase 'private fostering' is often misunderstood. There is local authority fostering and fostering by private agencies. However, in law 'Private Fostering' is quite different.

From a safeguarding perspective, many private fostering arrangements are 'hidden' and, it appears, are rarely brought to the attention of local authorities, even though it is an offence not to inform them. The penalty for non-reporting is a maximum £5,000 fine, but it seems that convictions are extremely rare.

Where the school becomes aware of a pupil being privately fostered, they will notify the LA as soon as possible to allow the LA to conduct any necessary checks.

What is Private Fostering?

A private fostering arrangement is one that is made privately (without the involvement of a local authority (or a private sector agency)) for the care of a child under the age of 16 years (under 18, if disabled) by someone other than a parent or close relative, in their own home, with the intention that it should last for 28 days or more. (*Close family relative is defined as a 'grandparent, brother, sister, uncle or aunt' and includes half-siblings and step-parents; it does not include great-aunts or uncles, great grandparents or cousins).

The local authority should be notified of the arrangement, at least six weeks before it starts and not to do so is a criminal offence.

Once the local authority has been notified, children's services have a duty to visit and speak to the child, the parent and the foster carer; and everyone in the foster carers household. Children's services will then undertake a range of suitability checks including DBS checks on everyone in the household over the age of 16.

[Sutton Local Safeguarding Children Partnership - Private Fostering \(suttonlscp.org.uk\)](http://suttonlscp.org.uk)

Fabricated or Induced Illness

Fabricated or induced illness (FII) is a rare form of child abuse. It occurs when a parent or carer, usually the child's biological mother, exaggerates or deliberately causes symptoms of illness in the child.

Trauma and Attachment

A significant number of children are exposed to traumatic life events. A traumatic event is one that threatens injury, death, or the physical integrity of self or others and also causes fear, terror, or helplessness at the time it occurs. Traumatic events include sexual abuse, physical abuse, domestic violence, community and school violence, medical trauma, car accidents, acts of terrorism, war experiences, natural and human-made disasters, suicides, and other traumatic losses.

If a child has experienced trauma they are likely to develop other related behaviours.

These include:

1. the development of new fears
2. separation anxiety (particularly in young children)
3. sleep disturbance, nightmares
4. sadness
5. loss of interest in normal activities
6. reduced concentration
7. decline in schoolwork
8. anger
9. somatic complaints
10. Irritability

Disguised Compliance

Parents who appear to cooperate to avoid professionals getting too close or asking too many questions. There is a tendency by professionals to confuse participation with cooperation. Indicators include parents that put little effort into making changes, limited improvement despite significant input, conflicting views of child and parent, parents align with certain professionals and only engage with part of the plan. The risks of disguised compliance are that cases may drift and lack focus, significant issues may be missed, risks may increase, cases may be closed too early and the child remains at risk of harm. It is important to keep an open mind, use an investigative approach and effective questioning. As professionals we must look beyond the obvious.

Hidden Children

Children who do not attend school can become hidden, which means that we are less able to help and protect them. Some of these children may experience risks within their family, such as abuse and neglect. There may also be risks outside their family, such as radicalisation or exploitation. Protecting

children from these external risks is known as contextual safeguarding. Children who do not attend school may be at further risk of not achieving their educational potential. They may not be able to access formal education or employment in the future if they have not gained recognised qualifications. They will also not benefit from the role that schools play in developing children's skills to participate fully and constructively in society.

So which children are we talking about?

1. Children not attending school nor on a school roll, including children who have been excluded both on a permanent or an informal basis and for whom no suitable alternative provision is arranged.
2. Children who fall under the heading 'educated at home', but may not be receiving effective, efficient and suitable education or any education. This includes some children who may not be known to their local authority (LA) or any agencies.
3. Children attending unregistered schools, sometimes under the guise of being electively home educated.
4. Children in alternative provision that is of insufficient quality or is not provided for the required hours.
5. Children without a school place in LAs in which the protocols are not working well enough for hard-to-place children.

Children and the court system

Children are sometimes required to give evidence in criminal courts, either for crimes committed against them or for crimes they have witnessed. This may have an impact on them in a number of different ways and they may need emotional support.

Children with family members in prison

Approximately 200,000 children have a parent sent to prison each year. These children are at risk of poor outcomes including poverty, stigma, isolation and poor mental health. This may have an impact on them in a number of different ways and they may need emotional support.

Serious Violent Crime

All staff need to know the indicators that may signal that children are at risk from, or are involved with, serious violent crime.

Indicators:

- Unexplained gifts or new possessions - these can indicate that children have been approached by or involved with individuals associated with criminal networks or gangs
- Increased absence from school
- Change in friendships or relationships with others or groups
- Significant decline in performance
- Signs of self-harm or significant change in wellbeing
- Signs of assault or unexplained injuries

Contextual Safeguarding

Safeguarding incidents can occur outside of school and can be associated with outside factors. School staff, particularly the DSL and their deputy(s), will always consider the context of incidents - this is known as contextual safeguarding. Contextual Safeguarding is an approach to understanding, and responding to, young people's experiences of significant harm beyond their families. It recognises that the different relationships that young people form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people's experiences of extra-familial abuse can undermine parent-child relationships.

Therefore, children's social care practitioners, child protection systems and wider safeguarding partnerships need to engage with individuals and sectors who do have influence over/within extra-familial contexts, and recognise that assessment of, and intervention with, these spaces are a critical part of safeguarding practices. Contextual Safeguarding, therefore, expands the objectives of child protection systems in recognition that young people are vulnerable to abuse beyond their front doors.

All staff should be aware that safeguarding incidents and/or behaviours can be associated with factors outside the school or college and/or can occur between children outside of these environments. All staff but especially the designated safeguarding lead (and deputies) should consider whether children are at risk of abuse or exploitation in situations outside of their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual exploitation, criminal exploitation and serious youth violence.

Assessment of pupils' behaviour will consider whether there are wider environmental factors that are a threat to their safety and/or welfare. The school will provide as much contextual information as possible when making referrals to social care.

[LSCP Protocol Safeguarding Adolescents.pdf \(suttonscp.org.uk\)](https://www.suttonscp.org.uk/LSCP_Protocol_Safeguarding_Adolescents.pdf)

[9b. Contextual Safeguarding Briefing.pdf \(suttonscp.org.uk\)](https://www.suttonscp.org.uk/9b.Contextual_Safeguarding_Briefing.pdf)

Sexual violence

All staff should be aware of the indicators, which may signal children are at risk from, or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that children have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation.

All staff should be aware of the range of risk factors which increase the likelihood of involvement in serious violence, such as being male, having been frequently absent or permanently excluded from school, having experienced child maltreatment and having been involved in offending, such as theft or robbery. Advice for schools and colleges is provided in the Home Office's Preventing youth violence and gang involvement and its Criminal exploitation of children and vulnerable adults: county lines guidance.

Sexual violence refers to the three following offences:

Rape: A person (A) commits an offence of rape if he intentionally penetrates the vagina, anus or mouth of another person (B) with his penis, B does not consent to the penetration and A does not reasonably believe that B consents.

Assault by Penetration: A person (A) commits an offence if s/he intentionally penetrates the vagina or anus of another person (B) with a part of her/his body or anything else, the penetration is sexual, B does not consent to the penetration and A does not reasonably believe that B consents.

Sexual Assault: A person (A) commits an offence of sexual assault if s/he intentionally touches another person (B), the touching is sexual, B does not consent to the touching and A does not reasonably believe that B consents.

Harmful sexual behaviours

The term "**harmful sexual behaviour**" is used to describe behaviour that is problematic, abusive and violent, and that may cause developmental damage. Harmful sexual behaviour may include:

Using sexually explicit words and phrases.

Inappropriate touching.

Sexual violence or threats.

Full penetrative sex with other children or adults.

Sexual interest in adults or children of very different ages to their own.

Forceful or aggressive sexual behaviour.

Compulsive habits.

Sexual behaviour affecting progress and achievement.

Using sexually explicit words and phrases.

Sexual violence or threats.

Sexual behaviour can also be harmful if one of the children is much older (especially where there is two years or more difference, or where one child is pre-pubescent and the other is not) and where the child may have SEND

Child-on-child Abuse/Harms

Staff should be aware that safeguarding issues can manifest themselves via child-on-child abuse/harm. This is most likely to include, but not limited to:

- bullying (including cyberbullying, prejudice-based and discriminatory bullying).
- abuse in intimate personal relationships between peers.
- physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm (this may include an online element which facilitates, threatens and/or encourages physical abuse).
- sexual violence, such as rape, assault by penetration and sexual assault; (this may include an online element which facilitates, threatens and/or encourages sexual violence).
- sexual harassment, such as sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse.
- causing someone to engage in sexual activity without consent, such as forcing someone to strip, touch themselves sexually, or to engage in sexual activity with a third party.
- consensual and non-consensual sharing of nudes and semi nudes images and or videos (also known as sexting or youth produced sexual imagery).
- up skirting, which typically involves taking a picture under a person's clothing without their permission, with the intention of viewing their genitals or buttocks to obtain sexual gratification, or cause the victim humiliation, distress or alarm; and
- initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group and may also include an online element).

Abuse is abuse and should never be tolerated or passed off as "banter" or "part of growing up" as this can lead to a culture of unacceptable behaviours and an unsafe environment for children.

Child-on-child abuse/harm can be a one-off serious incident or an accumulation of incidents. It can involve physical, emotional or sexual abuse. Child-on-child abuse/harm involves someone who abuses a 'vulnerability' or power imbalance to harm another and have the opportunity or be in an environment where this is possible. While perpetrators of Child-on-child abuse/harm pose a risk to others, they are often victims of abuse themselves.

We recognise that even if there are no reported cases of Child-on-child abuse, such abuse may still be taking place and is simply not being reported.

We recognise that it is more likely that girls will be victims and boys' perpetrators, but that all Child-on-child abuse is unacceptable and will be taken seriously

The procedures in place to minimise the risk of Child-on-Child Abuse.

the systems in place (and they should be well promoted, easily understood and easily accessible) for children to confidently report abuse, knowing their concerns will be treated seriously.

how allegations of Child-on-Child Abuse will be recorded, investigated, and dealt with.

clear processes as to how victims, perpetrators and any other children affected by Child-on-Child Abuse will be supported.

Sexual violence and sexual harassment

KCSIE 2022, Part 5 sets out how schools and colleges should respond to reports of sexual violence and sexual harassment. The school will follow the guidance in 'Keeping Children Safe in Education' (DfE, September 2022): **Responding to reports of sexual violence and sexual harassment** (paragraphs 459 - 557)

All school staff should be aware that students may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful. For example, they may feel embarrassed, humiliated, or being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. This should not prevent staff from having a professional curiosity and speaking to the DSL if they have concerns about a child. It is also important that staff determine how best to build trusted relationships with children and young people which facilitate communication.

All school staff, but especially the designated safeguarding lead (and deputies) should consider whether children are at risk of abuse or exploitation in situations outside their families. Extra-familial harms take a variety of different forms and children can be vulnerable to multiple harms including (but not limited to) sexual abuse (including harassment and exploitation), domestic abuse in their own intimate relationships (teenage relationship abuse), criminal exploitation, serious youth violence, county lines, and radicalisation.

In cases where nudes or semi-nudes have been shared, we follow guidance given to schools and colleges by the UK Council for Internet Safety (UKCIS): Sharing nudes and semi-nudes (December 2020)

A preventative approach

In order to prevent child-on-child abuse and address the wider societal factors that can influence behaviour, the school will educate pupils about abuse, its forms and the importance of discussing any concerns and respecting others through the curriculum, assemblies and PSHCE lessons.

The school will also ensure that pupils are taught about safeguarding, including online safety, as part of a broad and balanced curriculum in PSHE lessons, RSE and group sessions. Such content will be age and stage of development specific, and tackle issues such as the following:

Healthy relationships

Respectful behaviour

Gender roles, stereotyping and equality

Body confidence and self-esteem

Prejudiced behaviour

That sexual violence and sexual harassment is always wrong

Addressing cultures of sexual harassment

Pupils will be allowed an open forum to talk about concerns and sexual behaviour. They are taught how to raise concerns and make a report, including concerns about their friends or peers, and how a report will be handled

Awareness

All staff will be aware that pupils of any age and sex are capable of abusing their peers and will never tolerate abuse as "banter" or "part of growing up".

All staff will be aware that peer-on-peer abuse can be manifested in many different ways, including sexting and gender issues, such as girls being sexually touched or assaulted, and boys being subjected to hazing/initiation type of violence which aims to cause physical, emotional or psychological harm.

All staff will be made aware of the heightened vulnerability of pupils with SEND, who are three times more likely to be abused than their peers. Staff will not assume that possible indicators of abuse relate to the pupil's SEND and will always explore indicators further.

LGBTQ+ children can be targeted by their peers. In some cases, children who are perceived to be LGBTQ+, whether they are or not, can be just as vulnerable to abuse as LGBTQ+ children.

The school's response to boy-on-boy and girl-on-girl sexual violence and sexual harassment will be equally as robust as it is for incidents between children of the opposite sex.

Pupils will be made aware of how to raise concerns or make a report and how any reports will be handled. This includes the process for reporting concerns about friends or peers.

Support available if a child has been harmed, is in immediate danger or at risk of harm

If a child has been harmed, is in immediate danger or is at risk of harm, a referral will be made to the Children's First Contact Service.

Within one working day, a social worker will respond to the referrer to explain the action that will be taken.

Support available if early help, section 17 and/or section 47 statutory assessments are appropriate

If early help, section 17 and/or section 47 statutory assessments (assessments under the Children Act 1989) are appropriate, school staff may be required to support external agencies. The DSL and deputies will support staff as required.

Support available if a crime may have been committed

Rape, assault by penetration and sexual assaults are crimes. Where a report includes such an act, the police will be notified, often as a natural progression of making a referral to the Children's First Contact Service (CFCS). The DSL will be aware of the local process for referrals to both the Children's First Contact Service (CFCS) and the police.

Whilst the age of criminal responsibility is 10 years of age, if the alleged perpetrator is under 10, the principle of referring to the police remains. In these cases, the police will take a welfare approach rather than a criminal justice approach.

The school has a close relationship with the local police force and the DSL will liaise closely with the local police presence.

Support available if reports include online behaviour

Online concerns can be especially complicated. The school recognises that there is potential for an online incident to extend further than the local community and for a victim, or the alleged perpetrator, to become marginalised and excluded both online and offline. There is also strong potential for repeat victimisation if the content continues to exist.

If the incident involves sexual images or videos held online, the [Internet Watch Foundation](#) will be consulted to have the material removed.

Staff will not view or forward illegal images of a child. If they are made aware of such an image, they will contact the DSL.

Child abduction and community safety incidents

Child abduction is the unauthorised removal or retention of a minor from a parent or anyone with legal responsibility for the child. Child abduction can be committed by parents or other family members; by people known but not related to the victim (such as neighbours, friends and acquaintances); and by strangers. Other community safety incidents in the vicinity of a school can raise concerns amongst children and parents, for example, people loitering nearby or unknown adults engaging children in conversation. As children get older and are granted more independence (for example, as they start walking to school on their own) it is important they are given practical advice on how to keep themselves safe. Many schools provide outdoor-safety lessons run by teachers or by local police staff. It is important that lessons focus on building children's confidence and abilities rather than simply warning them about all strangers. Further information is available at: www.actionagainstabduction.org and www.clevernevergoes.org.

Modern Slavery

Modern Slavery and the National Referral Mechanism Modern slavery encompasses human trafficking and slavery, servitude and forced or compulsory labour. Exploitation can take many forms, including: sexual exploitation, forced labour, slavery, servitude, forced criminality and the removal of organs. Further information on the signs that someone may be a victim of modern slavery, the support available to victims and how to refer them to the NRM is available in the Modern Slavery Statutory Guidance. Modern slavery: how to identify and support victims - GOV.UK (www.gov.uk)

Cyber Crime

Cybercrime is criminal activity committed using computers and/or the internet. It is broadly categorised as either 'cyber-enabled' (crimes that can happen off-line but are enabled at scale and at speed on-line) or 'cyber dependent' (crimes that can be committed only by using a computer). Cyber-dependent crimes include; • unauthorised access to computers (illegal 'hacking'), for example accessing a school's computer network to look for test paper answers or change grades awarded; • denial of Service (Dos or DDoS) attacks or 'booting'. These are attempts to make a computer, network or website unavailable by overwhelming it with internet traffic from multiple sources; and, • making, supplying or obtaining malware (malicious software) such as viruses, spyware, ransomware, botnets and Remote Access Trojans with the intent to commit further offence, including those above. 128 Children with particular skill and interest in computing and technology may inadvertently or deliberately stray into cyber-dependent crime. If there are concerns about a child in this area, the designated safeguarding lead (or a deputy), should consider referring into the Cyber Choices programme. This is a nationwide police programme supported by the Home Office and led by the National Crime Agency, working with regional and local policing. It aims to intervene where young people are at risk of committing, or being drawn into, low level cyber-dependent offences and divert them to a more positive use of their skills and interests. Note that Cyber Choices does not currently cover 'cyber-enabled' crime such as fraud, purchasing of illegal drugs on-line and child sexual abuse and exploitation, nor other areas of concern such as on-line bullying or general on-line safety. Additional advice can be found at: Cyber Choices, 'NPCC- When to call the Police' and National Cyber Security Centre - NCSC.GOV.UK.

APPENDIX B

SEXUAL VIOLENCE AND SEXUAL HARASSMENT AND MANAGING DISCLOSURES

Sexual violence and sexual harassment can occur between two children of any sex. They can also occur through a group of children sexually assaulting or sexually harassing a single child or group of children.

Children who are victims of sexual violence and sexual harassment will likely find the experience stressful and distressing. This will, in all likelihood, adversely affect their educational attainment.

Sexual violence and sexual harassment exist on a continuum and may overlap, they can occur online and offline (both physical and verbal) and are never acceptable.

It is important to note that Children with Special Educational Needs and Disabilities can be especially vulnerable. Disabled and deaf children are three times more likely to be abused than their peers.

It is important that all victims are taken seriously and offered appropriate support.

When there has been a report of sexual violence, the designated safeguarding lead (or a deputy) should make an immediate risk and needs assessment. Where there has been a report of sexual harassment, the need for a risk assessment should be considered on a case-by-case basis. Toolkits that will support the risk assessment process include: Brook: traffic light tool.

The designated safeguarding lead (or deputy) should ensure they are engaging with children's social care and specialist services as required. Where there has been a report of sexual violence, it is likely that professional risk assessments by social workers and or sexual violence specialists will be required.

Support available if a child has been harmed, or is in immediate danger or at risk of harm

If a child has been harmed, is in immediate danger or is at risk of harm, a referral will be made to the Children's First Contact Service.

Support available if early help, section 17 and/or section 47 statutory assessments are appropriate

If early help, section 17 and/or section 47 statutory assessments (assessments under the Children Act 1989) are appropriate, school staff may be required to support external agencies. The DSL and deputies will support staff as required.

Support available if a crime may have been committed

Rape, assault by penetration and sexual assaults are crimes. Where a report includes such an act, the police will be notified, often as a natural progression of making a referral to the Children's First Contact Service (CFCS). The DSL will be aware of the local process for referrals to both the Children's First Contact Service (CFCS) and the police.

Whilst the age of criminal responsibility is 10 years of age, if the alleged perpetrator is under 10, the principle of referring to the police remains. In these cases, the police will take a welfare approach rather than a criminal justice approach.

The school has a close relationship with the local police force and the DSL will liaise closely with the local police presence.

Support available if reports include online behaviour

Online concerns can be especially complicated. The school recognises that there is potential for an online incident to extend further than the local community and for a victim, or the alleged perpetrator, to become marginalised and excluded both online and offline. There is also strong potential for repeat victimisation if the content continues to exist.

If the incident involves sexual images or videos held online, the Internet Watch Foundation will be consulted to have the material removed.

Staff will not view or forward illegal images of a child. If they are made aware of such an image, they will contact the DSL.

Managing disclosures

Victims will always be taken seriously, reassured, supported and kept safe. Victims will never be made to feel like they are causing a problem or made to feel ashamed.

If a friend of a victim makes a report or a member of staff overhears a conversation, staff will act - they will never assume that someone else will deal with it. The basic principles remain the same as when a victim reports an incident; however, staff will consider why the victim has not chosen to make a report themselves and the discussion will be handled sensitively and with the help of CSCS where necessary. If staff are in any doubt, they will speak to the DSL.

Where an alleged incident took place away from the school or online but involved pupils from the school, the school's duty to safeguard pupils remains the same.

All staff will be trained to handle disclosures.

The DSL will be informed of any allegations of abuse against pupils with SEND. They will record the incident in writing and, working with the SENCO, decide what course of action is necessary, with the best interests of the pupil in mind at all times.

Confidentiality

The school will only engage staff and agencies required to support the victim and/or be involved in any investigation. If a victim asks the school not to tell anyone about the disclosure, the school cannot make this promise. Even without the victim's consent, the information may still be lawfully shared if it is in the public interest and protects children from harm.

The DSL will consider the following when making confidentiality decisions:

- Parents will be informed unless it will place the victim at greater risk.
- If a child is at risk of harm, is in immediate danger or has been harmed, a referral will be made to the Children's First Contact Service.
- Rape, assault by penetration and sexual assaults are crimes - reports containing any such crimes will be passed to the police.
- The DSL will weigh the victim's wishes against their duty to protect the victim and others. If a referral is made against the victim's wishes, it will be done so extremely carefully and the reasons for referral will be explained to the victim. Appropriate specialist support will always be offered.

Anonymity

There are legal requirements for anonymity where a case is progressing through the criminal justice system. The school will do all it can to protect the anonymity of children involved in any report of sexual violence or sexual harassment. It will carefully consider, based on the nature of the report, which staff will be informed and what support will be in place for the children involved.

When deciding on the steps to take, the school will consider the role of social media in potentially exposing victims' identities and facilitating the spread of rumours.

Risk assessment

The DSL or a deputy will make an immediate risk and needs assessment any time there is a report of sexual violence. For reports of sexual harassment, a risk assessment will be considered on a case-by-case basis. Risk assessments are not intended to replace the detailed assessments of experts, and for incidents of sexual violence it is likely that a professional risk assessment by a social worker or sexual violence specialist will be required.

Risk assessments will consider:

The victim.

The alleged perpetrator.

Other children at the school, especially any actions that are appropriate to protect them.

Risk assessments will be recorded (either on paper or electronically) and kept under review in accordance with the school's **Data Protection Policy**.

Taking action following a disclosure

The DSL or a deputy will decide the school's initial response, taking into consideration:

- The victim's wishes.
- The nature of the incident.
- The ages and developmental stages of the children involved.
- Any power imbalance between the children.
- Whether the incident is a one-off or part of a pattern.
- Any ongoing risks.
- Any related issues and the wider context, such as whether there are wider environmental factors in a child's life that threaten their safety and/or welfare.
- The best interests of the child.

That sexual violence and sexual harassment are always unacceptable and will not be tolerated.

Immediate consideration will be given as to how to support the victim, alleged perpetrator and any other children involved.

For reports of rape and assault by penetration, whilst the school establishes the facts, the alleged perpetrator will be removed from any classes shared with the victim. The school will consider how to keep the victim and alleged perpetrator apart on school premises, and on transport where applicable. These actions will not be seen as a judgement of guilt on the alleged perpetrator.

For reports of sexual violence and sexual harassment, the proximity of the victim and alleged perpetrator and the suitability of shared classes, premises and transport will be considered immediately.

In all cases, the initial report will be carefully evaluated and the wishes of the victim, nature of the allegations and requirement to protect all children will be taken into consideration.

Managing the report

The decision of when to inform the alleged perpetrator of a report will be made on a case-by-case basis. If a report is being referred to CSCS or the police, the school will speak to the relevant agency to discuss informing the alleged perpetrator.

There are four likely outcomes when managing reports of sexual violence or sexual harassment:

- Managing internally
- Providing early help
- Referring to CSCS
- Reporting to the police

Whatever outcome is chosen, it will be underpinned by the principle that sexual violence and sexual harassment is never acceptable and will not be tolerated. All concerns, discussion, decisions and reasons behind decisions will be recorded either on paper or electronically.

The following situations are statutorily clear and do not allow for contrary decisions:

- A child under the age of 13 can never consent to sexual activity.
- The age of consent is 16.
- Sexual intercourse without consent is rape.
- Rape, assault by penetration and sexual assault are defined in law.

- Creating and sharing sexual photos and videos of children under 18 is illegal - including children making and sending images and videos of themselves.

Managing internally

In some cases, e.g. one-off incidents, the school may decide to handle the incident internally through behaviour and bullying policies and by providing pastoral support.

Providing early help

The school may decide that statutory interventions are not required, but that pupils may benefit from early help - providing support as soon as a problem emerges. This approach can be particularly useful in addressing non-violent harmful sexual behaviour and may prevent escalation of sexual violence.

[Harmful sexual behaviour framework: an evidence-informed operational framework for children and young people displaying harmful sexual behaviours \(suttonlscp.org.uk\)](https://www.suttonlscp.org.uk)

Referral to CSOS

If a child has been harmed, is at risk of harm or is in immediate danger, the school will make a referral to the Children's First Contact Service (CFCS). Parents will be informed unless there is a compelling reason not to do so (if referral will place the victim at risk). This decision will be made in consultation with the Children's First Contact Service (CFCS).

The school will not wait for the outcome of an investigation before protecting the victim and other children.

The DSL will work closely with the Children's First Contact Service (CFCS) to ensure that the school's actions do not jeopardise any investigation. Any related risk assessment will be used to inform all decisions.

If the Children's First Contact Service (CFCS) decide that a statutory investigation is not appropriate, the school will consider referring the incident again if they believe the child to be in immediate danger or at risk of harm.

If the school agrees with the decision made by the Children's First Contact Service (CFCS) they will consider the use of other support mechanisms such as early help, pastoral support and specialist support.

Reporting to the police

Reports of rape, assault by penetration or sexual assault will be passed on to the police - even if the alleged perpetrator is under 10 years of age. Generally, this will be in parallel with referral Children's First Contact Service (CFCS). The DSL and deputies will follow the local process for referral. Parents will be informed unless there is a compelling reason not to do so. Where parents are not informed, it is essential for the school to support the child with any decision they take, in unison with the Children's First Contact Service (CFCS) and any appropriate specialist agencies

The school will not wait for the outcome of an investigation before protecting the victim and other children.

The DSL and governing body will work closely with the Children's First Contact Service (CFCS) to agree what information will be disclosed to staff and others, in particular the alleged perpetrator and their parents. They will also discuss the best way to protect the victim and their anonymity and to ensure

that the school's actions do not jeopardise any investigation. Any related risk assessment will be used to inform all decisions.

If the Children's First Contact Service (CFCS) decide that a statutory investigation is not appropriate, the school will consider referring the incident again if they believe the child to be in immediate danger or at risk of harm.

Bail conditions

Police bail is only used in exceptional circumstances. It is unlikely that a child will be placed on police bail if alternative measures can be used to mitigate risks.

The school will work with the Children's First Contact Service (CFCS) and the police to support the victim, alleged perpetrator and other children (especially witnesses) during criminal investigations. The school will seek advice from the police to ensure they meet their safeguarding responsibilities.

The term 'released under investigation' (RUI) is used to describe alleged perpetrators released in circumstances that do not warrant the application of bail.

Where bail is deemed necessary, the school will work with the Children's First Contact Service (CFCS) and the police to safeguard children - ensuring that the victim can continue in their normal routine and

Managing delays in the criminal justice system

The school will not wait for the outcome (or even the start) of criminal proceedings before protecting the victim, alleged perpetrator and other children. The associated risk assessment will be used to inform any decisions made.

The DSL will work closely with the police to ensure the school does not jeopardise any criminal proceedings, and to obtain help and support as necessary.

The end of the criminal process

Risk assessments will be updated if the alleged perpetrator receives a caution or is convicted. If the perpetrator remains in the same school as the victim, the school will set out clear expectations regarding the perpetrator, including their behaviour and any restrictions deemed reasonable and proportionate with regards to the perpetrator's timetable.

The school will ensure that the victim and perpetrator remain protected from bullying and harassment (including online).

Where an alleged perpetrator is found not guilty or a case is classed as requiring "no further action", the school will offer support to the victim and alleged perpetrator for as long as is necessary. The victim is likely to be traumatised and the fact that an allegation cannot be substantiated does not necessarily mean that it was unfounded. The school will discuss decisions with the victim and offer support.

The alleged perpetrator is also likely to require ongoing support, as they have also been through a difficult and upsetting experience.

Ongoing support for the victim

Any decisions regarding safeguarding and supporting the victim will be made with the following considerations in mind:

- The terminology the school uses to describe the victim
- The age and developmental stage of the victim
- The needs and wishes of the victim
- Whether the victim wishes to continue in their normal routine
- The victim will not be made to feel ashamed about making a report What a proportionate response looks like
- Victims may not disclose the whole picture immediately and they may be more comfortable talking about the incident on a piecemeal basis; therefore, a dialogue will be kept open and the victim can choose to appoint a designated trusted adult.

Victims may struggle in a normal classroom environment. Whilst it is important not to isolate the victim, the victim may wish to be withdrawn from lessons and activities at times. This will only happen when the victim wants it to, not because it makes it easier to manage the situation.

The school will provide a physical space for victims to withdraw to.

Victims may require support for a long period of time and the school will be prepared to offer long-term support in liaison with relevant agencies.

Everything possible will be done to prevent the victim from bullying and harassment as a result of any report they have made.

If the victim is unable to remain in the school, alternative provision or a move to another school will be considered - this will only be considered at the request of the victim and following discussion with their parents.

If the victim does move to another school, the DSL will inform the school of any ongoing support needs and transfer the child protection file.

Ongoing support for the alleged perpetrator

When considering the support required for an alleged perpetrator, the school will take into account:

- The terminology they use to describe the alleged perpetrator or perpetrator.
- The balance of safeguarding the victim and providing the alleged perpetrator with education and support.
- The reasons why the alleged perpetrator may have abused the victim - and the support necessary.
- Their age and developmental stage.
- What a proportionate response looks like.
- Whether the behaviour is a symptom of their own abuse or exposure to abusive practices and/or materials.
- When making a decision, advice will be taken from CSCS, specialist sexual violence services and the police as appropriate.

If the alleged perpetrator moves to another school (for any reason), the DSL will inform the destination school of any ongoing support needs and transfer the child protection file.

The school will work with professionals as required to understand why the abuse took place and provide a high level of support to help the pupil understand and overcome the reasons for their behaviour and reduce the likelihood of them abusing again.

Disciplining the alleged perpetrator

Disciplinary action can be taken whilst investigations are ongoing and the fact that investigations are ongoing does not prevent the school reaching its own conclusion and imposing an appropriate penalty.

The school will make such decisions on a case-by-case basis, with the DSL taking a leading role. The school will take into consideration whether any action would prejudice an investigation and/or subsequent prosecution. The police and CSCS will be consulted where necessary.

The school will also consider whether circumstances make it unreasonable or irrational for the school to make a decision about what happened while an investigation is considering the same facts.

Disciplinary action and support can take place at the same time.

The school will be clear whether action taken is disciplinary, supportive or both.

Once the DSL has decided to progress a report, they will again consider whether the victim and alleged perpetrator will be separated in classes, on school premises and on school transport - balancing the school's duty to educate against its duty to safeguard. The best interests of the pupil will always come first.

Where there is a criminal investigation into rape or assault by penetration, the alleged perpetrator will be removed from classes with the victim and potential contact on school premises and transport will be prevented.

Where a criminal investigation into rape or assault by penetration leads to a conviction or caution, in all but the most exceptional circumstances, this will constitute a serious breach of discipline and result in the view that allowing the perpetrator to remain in the school would harm the education or welfare of the victim and potentially other pupils.

Where a criminal investigation into sexual assault leads to a conviction or caution, the school will consider suitable sanctions and permanent exclusion. If the perpetrator will remain at the school, the school will keep the victim and perpetrator in separate classes and manage potential contact on school premises and transport. The nature of the conviction or caution, alongside the wishes of the victim, will inform any discussions made.

Where a report of sexual assault does not lead to a police investigation, this does not mean that the offence did not happen or that the victim has lied. Both the victim and alleged perpetrator will be affected and appropriate support will be provided. Considerations regarding sharing classes and potential contact will be made on a case-by-case basis.

In all cases, the school will record its decisions and be able to justify them. The needs and wishes of the victim will always be at the heart of the process.

Working with parents and carers

In most sexual violence cases, the school will work with the parents of both the victim and alleged perpetrator. For cases of sexual harassment, these decisions will be made on a case-by-case basis.

The school will meet the victim's parents with the victim present to discuss the arrangements being put in place to safeguard the victim, and to understand their wishes in terms of support arrangements and the progression of the report.

Schools will also meet with the parents of the alleged perpetrator to discuss arrangements that will impact their child, such as moving them out of classes with the victim. Reasons behind decisions will be explained and the support being made available will be discussed. The DSL or a deputy will attend such meetings, with agencies invited as necessary.

Clear policies regarding how the school will handle reports of sexual violence and how victims and alleged perpetrators will be supported will be made available to parents.

Safeguarding other children

Children who have witnessed sexual violence, especially rape and assault by penetration, will be provided with support.

It is likely that children will "take sides" following a report, and the school will do everything in its power to protect the victim, alleged perpetrator and witnesses from bullying and harassment.

The school will keep in mind that contact may be made between the victim and alleged perpetrator and that harassment from friends of both parties could take place via social media and do everything in its power to prevent such activity.

As part of the school's risk assessment following a report, transport arrangements will be considered, as it is a potentially vulnerable place for both a victim and alleged perpetrator. Schools will consider any additional support that can be put in place.

What to do if you are informed that a parent is on the sex offenders register

In this situation the Head teacher will be guided by parole conditions where relevant to keep children safe in school. This information must be treated as strictly confidential and will only be shared with the Designated Safeguarding Lead if appropriate.

Please see Sexual violence and sexual harassment between children in schools and college - September 2021 for more information. [Sexual violence and sexual harassment between children in schools and colleges \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/95122/sexual-violence-and-sexual-harassment-between-children-in-schools-and-colleges.pdf)

SAFER RECRUITMENT PROCESSES - PLEASE READ ALONGSIDE SAFER RECRUITMENT POLICY

An enhanced DBS check with barred list information will be undertaken for all staff members engaged in regulated activity. A person will be considered to be in 'regulated activity' if, as a result of their work, they:

Are responsible on a daily basis for the care or supervision of children.
Regularly work in the school at times when children are on the premises.
Regularly come into contact with children under 18 years of age.

The DfE's [DBS Workforce Guides](#) will be consulted when determining whether a position fits the child workforce criteria.

Pre-employment checks

The governing board will assess the suitability of prospective employees by:

Verifying the candidate's identity, preferably from the most current photographic ID and proof of address except where, for exceptional reasons, none is available.

Obtaining a certificate for an enhanced DBS check with barred list information where the person will be engaged in regulated activity.

Obtaining a separate barred list check if an individual will start work in regulated activity before the DBS certificate is available.

Checking that a candidate to be employed as a teacher is not subject to a prohibition order issued by the Secretary of State, using the [TRA Teacher Services' System](#).

Verifying the candidate's mental and physical fitness to undertake their working responsibilities, including asking relevant questions about disability and health to establish whether they have the physical and mental capacity for the specific role.

Checking the person's right to work in the UK. If there is uncertainty about whether an individual needs permission to work in the UK, the advice set out on the [Gov.UK](#) website will be followed.

If the person has lived or worked outside the UK, making any further checks that the school considers appropriate; this includes checking for any teacher sanctions or restrictions that an EEA professional regulating authority has imposed.

Checking professional experience, QTS and qualifications as appropriate using Teacher Services.

We confirm that an individual taking up a management position is not subject to a section 128 direction.

An enhanced DBS certificate will be obtained from candidates before or as soon as practicable after appointment. An online update check may be undertaken through the DBS update service if an applicant has subscribed to it and gives their permission.

Please see recruitment and retention policy for further details.

Internal candidates

- If an individual moves from a position within the college that did not involve the provision of education to one that does, it will be treated as if the individual were a new member of staff and all required pre-appointment checks will be carried out.
- References from internal candidates will always be scrutinised before appointment.

Governors

An enhanced DBS check will be carried out for each member of the governing board in a maintained school. Where a governor also engages in regulated activity, a barred list check will also be requested. The school will also contact the TRA using Teacher Services to check if a proposed governor is barred as a result of being subject to a section 128 direction. Where a barred list check has been performed, the section 128 direction will also be shown and will not require a separate check.

Those who have lived or worked outside of the UK

For those who have lived or worked outside of the UK, additional checks regarding teacher sanctions or restrictions will be conducted, this includes checking for any teacher sanctions or restrictions that an EEA professional regulating authority has imposed.

Barred list check

An enhanced DBS check may be requested for anyone working in school that is not in regulated activity but does not have a barred list check.

If there are concerns about an applicant, an enhanced DBS check with barred list information may be requested, even if they have worked in regulated activity in the three months prior to appointment.

Written information about their previous employment history will be obtained from candidates and the appropriate checks undertaken to ensure information is not contradictory or incomplete.

References

References will be obtained directly from referees and scrutinised, with all concerns satisfactorily resolved prior to confirmation of employment. References will only be accepted from a **senior person** and not from a colleague.

References will be sought on all short-listed candidates, including internal ones, usually before interview and checked on receipt to ensure that all specific questions were answered satisfactorily.

References will be obtained prior to interviews taking place for teaching positions and discussed during interviews.

Open testimonials will not be considered.

Information about past disciplinary actions or allegations will be considered carefully when assessing an applicant's suitability for a post.

Information sourced directly from a candidate or online source **will be carefully vetted** to ensure they originate from a credible source.

Volunteers

No volunteer will be left unsupervised with a pupil or allowed to work in regulated activity until the necessary checks have been obtained.

An enhanced DBS certificate with barred list check will be obtained for all new volunteers in regulated activity that will regularly teach or look after children on an unsupervised basis or provide personal care on a one-off basis. **Personal care includes** helping a child with eating and drinking for reasons of illness, or care in connection with toileting, washing, bathing and dressing for reasons of age, illness or disability.

A supervised volunteer who regularly teaches or looks after children **is not** in regulated activity.

The school will obtain an enhanced DBS certificate with barred list check for existing volunteers that provide pastoral care. Unless there is cause for concern, the school will not request any new DBS certificates with barred list check for existing volunteers that have already been checked.

A risk assessment will be undertaken for volunteers not engaged in regulated activity when deciding whether to seek an enhanced DBS check.

Data retention

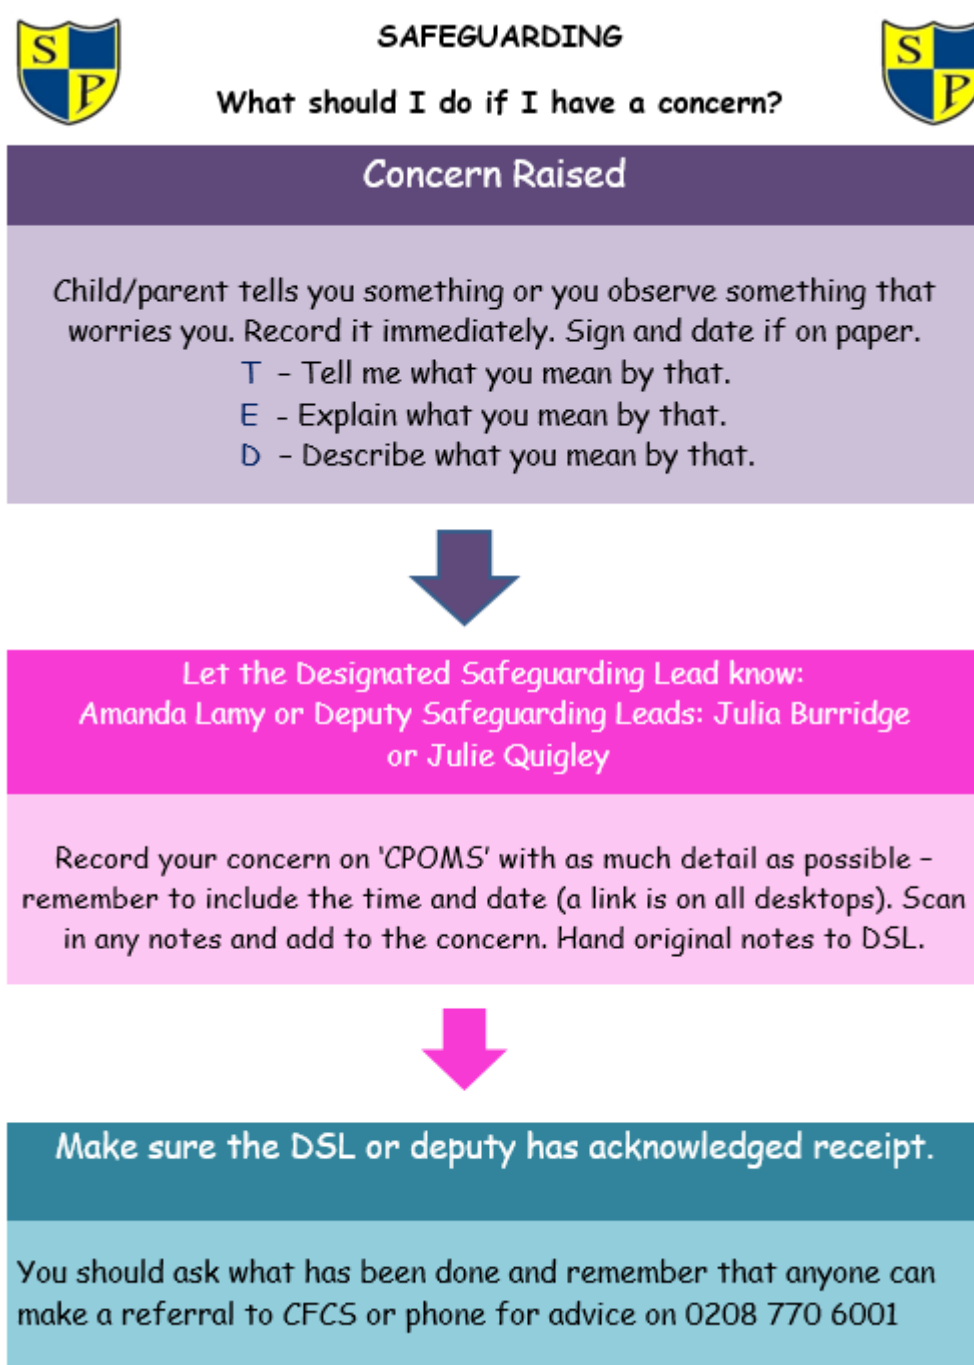

DBS certificates will be securely destroyed as soon as practicable, but not retained for longer than six months from receipt.

A copy of the other documents used to verify the successful candidate's identity, right to work and required qualifications will be kept for the personnel file. The personnel file will be held for the duration of the employee's employment plus six years.

Referral to the DBS

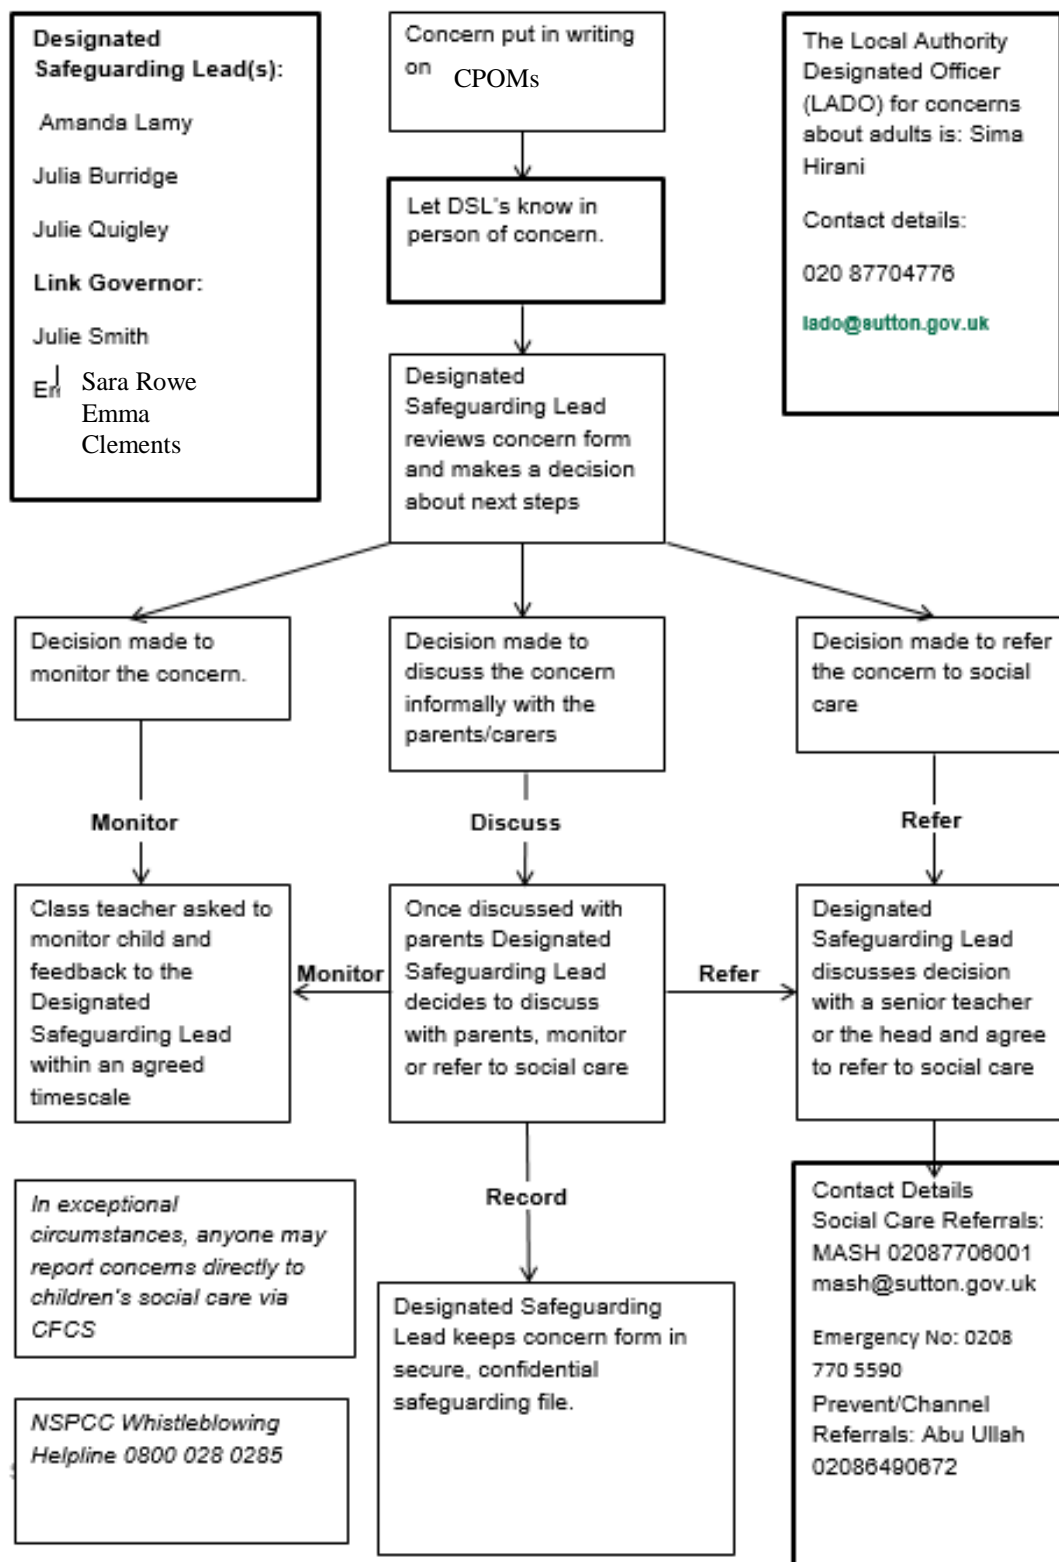

The school will refer to the DBS anyone who has harmed a child or poses a risk of harm to a child, or if there is reason to believe the member of staff has committed an offence and has been removed from working in regulated activity.

APPENDIX C - FLOW CHARTS FOR CLASSROOMS AND STAFFROOM

APPENDIX D - FLOWCHART FOR DESIGNATED SAFEGUARDING LEADS

FLOW CHART FOR RAISING SAFEGUARDING CONCERNS ABOUT A CHILD

APPENDIX E

MENTAL HEALTH DEFINITIONS

All staff should also be aware that **mental health problems** can, in some cases, be an indicator that a child has suffered or is at risk of suffering abuse, neglect or exploitation.

Anxiety

Anxiety problems can significantly affect a child's ability to develop, to learn or to maintain and sustain friendships.

Children and young people may feel anxious for several reasons - for example because of worries about things that are happening at home or at school, or because of a traumatic event. Symptoms of anxiety include feeling fearful or panicky, breathless, tense, fidgety, sick, irritable, tearful or having difficulty sleeping. If they become persistent or exaggerated, then specialist help, and support will be required.

Clinical professionals refer to several diagnostic categories:

- Generalised anxiety disorder (GAD) - a long-term condition which causes people to feel anxious about a wide range of situations and issues, rather than one specific event;
- Panic disorder - a condition in which people have recurring and regular panic attacks, often for no obvious reason;
- Obsessive-Compulsive Disorder (OCD) - a mental health condition where a person has obsessive thoughts (unwanted, unpleasant thoughts, images or urges that repeatedly enter their mind, causing them anxiety) and compulsions (repetitive behaviour or mental acts that they feel they must carry out to try to prevent an obsession coming true);
- Specific phobias - the excessive fear of an object or a situation, to the extent that it causes an anxious response, such as panic attack;
- Separation Anxiety Disorder (SAD) - worry about being away from home or about being far away from parents/carers, at a level that is much more than normal for the child's age;
- Social Phobia - intense fear of social or performance situations;
- Agoraphobia - a fear of being in situations where escape might be difficult, or help wouldn't be available if things go wrong.

Depression

Feeling low or sad is a common feeling for children and adults, and a normal reaction to experiences that are stressful or upsetting. When these feelings dominate and interfere with a person's life, it can become an illness.

Depression can significantly affect a child's ability to develop, to learn or to maintain and sustain friendships.

Clinicians making a diagnosis of depression will generally use the categories major depressive disorder (MDD - where the person will show a number of depressive symptoms to the extent that they impair work, social or personal functioning) or dysthymic disorder (DD - less severe than MDD, but characterised by a daily depressed mood for at least two years).

Hyperkinetic Disorders

(e.g. disturbance of activity and attention)

Although many children are inattentive, easily distracted or impulsive, in some children these behaviours are exaggerated and persistent, compared with other children of a similar age and stage of development. When these behaviours interfere with a child's family and social functioning and with progress at school, they become a matter for professional concern.

Attention Deficit Hyperactivity Disorder (ADHD) is a diagnosis used by clinicians. It involves three characteristic types of behaviour - inattention, hyperactivity and impulsivity. Whereas some children show signs of all three types of behaviour (this is called 'combined type' ADHD), other children diagnosed show signs only of inattention or hyperactivity/impulsiveness.

Hyperkinetic disorder is another diagnosis used by clinicians. It is a more restrictive diagnosis but is broadly like severe combined type ADHD, in that signs of inattention, hyperactivity and impulsiveness must all be present. These core symptoms must also have been present before the age of seven and must be evident in two or more settings.

Attachment disorders

Attachment is the affectionate bond children have with special people in their lives that lead them to feel pleasure when they interact with them and be comforted by their nearness during times of stress. Researchers generally agree that there are four main factors that influence attachment security: opportunity to establish a close relationship with a primary caregiver; the quality of caregiving; the child's characteristics; and the family context. Secure attachment is an important protective factor for mental health later in childhood, while attachment insecurity is widely recognised as a risk factor for the development of behaviour problems.

Eating disorders

The most common eating disorders are anorexia nervosa and bulimia nervosa. Eating disorders can emerge when worries about weight begin to dominate a person's life. Someone with anorexia nervosa worries persistently about being fat and eats very little. They lose a lot of weight and if female, their periods may stop. Someone with bulimia nervosa also worries persistently about weight. They alternate between eating very little, and then bingeing. They vomit or take laxatives to control their weight. Both eating disorders affect girls and boys but are more common in girls.

Deliberate self-harm

Self-harm is a serious public health problem and is the reason behind many admissions to accident and emergency departments every year. Self-harm and suicidal threats by a child/young person put them at risk of significant harm and should always be taken seriously and responded to without delay.

Common examples of deliberate self-harm include 'overdosing' (self-poisoning), hitting, cutting or burning oneself, pulling hair or picking skin, or self-strangulation. The clinical definition includes attempted suicide, though some argue that self-harm only includes actions which are not intended to be fatal. It can be a coping mechanism, a way of inflicting punishment on oneself and a way of validating the self or influencing others.

Self-harming is NOT attention seeking behaviour, it is attention NEEDING behaviour.

The school will follow the Sutton Self-Harm protocol in responding to concerns about self-harm. [LSCP MANAGEMENT OF YOUNG PEOPLE WHO SELF-HARM OR HAVE SUICIDAL IDEATION \(suttonlscp.org.uk\)](https://www.suttonlscp.org.uk)

Post-traumatic stress

If a child experiences or witnesses something deeply shocking or disturbing they may have a traumatic stress reaction. This is a normal way of dealing with shocking events and it may affect the way the child thinks, feels and behaves. If these symptoms and behaviours persist, and the child is unable to come to terms with what has happened, then clinicians may make a diagnosis of post-traumatic stress disorder (PTSD).
