SUMMER 2019

Isle of Wight

On Monday 23RD of June Yr. 6 went to the Kingswood centre in Bembridge, Isle of Wight. During this trip we had many fun activities such as abseiling, motor sports, body Boarding (with huge waves), an obstacle course and the 3G Swing, a tall and exhilarating experience in which you could choose how high you go.

In between our activities, we had a variety of food at the cafeteria to choose from, with different themes and foods each day. Dormitories had rooms holding 2-6 people in the boys building, McIvers, and 8-12 people for the girls building, Medina. The rooms and the beds weren't what we were used to but we all managed to sleep, despite the excitement. Overall, the Isle of Wight was an enjoyable and unique experience for everyone. We hope that everyone in the future has a great time enjoying this trip, as we did, and gets just as much sun and huge-wave action as we did! *By Zak B, Peter, James C, Josh and Arnav*

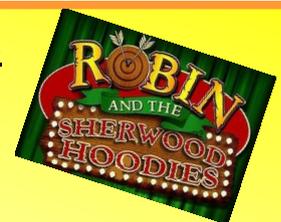

Activity Week

On the week beginning 17th June, several children had Activity Week. Each day we did a different activity. On Monday we were at Sutton Sport Village where we did fitness, gymnastics using beams and bars and trampolining. Tuesday was the day for golf at Oaks Park driving range, some of us even using computers to see where our shots went! After that we had a go at some challenging orienteering round the park. Wednesday saw us visited by the Laser Lions, involving shooting each other in a safe but fun way! Thursday was our chance at trying our cookery skills as well as visiting the allotment to find all the produce. Friday was our trip to High Ashurst for their challenge course, involving a giant see-saw, balance beam and assault course. We even had to get round it holding cups of water! We also had a go on the large climbing wall as well as abseiling down. *By Shiven and*

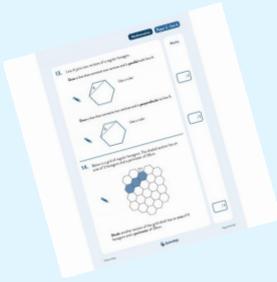

Year 6 Production Robin Hood and the Sherwood Hoodies

For the past 2 weeks or so, Year Six have been working on their end of year production. It was very exciting when we found out our roles in the play. There are also lots of people working on the play, behind the scenes, such as stage hands, technical crew, lighting crew, prop designers etc. We have been working hard to perfect our lines and song words to make our play as brilliant as the other productions have been in the past. We also have catchy songs that the dancers have been choreographing dances and actions to. The prop designers have been working very hard on making the props and backdrops to each scene. They have been cutting, sticking, drawing, painting and much more to make our production as good as be. We hope you enjoyed our production and we hope the following years will enjoy doing their production as much as we did. *By Isla and Isabella*

SATS

SATS week commenced on the 13th of May, we were tested on Maths [reasoning and arithmetic] and English [comprehension and SPaG]. There were six tests that were held over four days.

The week ended in Fun Day that everyone deserved after all the hard work this year. Every day after tests we got a biscuit for all the hard work during the exams. The comprehension had many inference questions that were worth more marks because of the amount of detail it required to answer it correctly. The reasoning consisted of many difficult questions. Again, with the reasoning, it took more thought to answer the question. In the end, it wasn't as bad as we thought. Now we're just waiting for the results to be given to us. *By Lucy F and Lauren*

Swimming

Some of us in Year 6 undertook swimming training. This was an opportunity for us so that when we were on the Isle of Wight we would know how to swim safely in the sea. The first day we were in the small pool doing front strokes and back strokes and learning types of floating techniques. On subsequent days, we were in the larger pool doing more techniques of swimming including going in the deep end for a time to develop confidence. On the final day, we did front crawl and back crawl from the deep end to the shallow end. It was great fun and really helped our confidence in the sea! *By Stevie and Ben*

Cycling proficiency

On the week commencing the half term, children from Yr6 had the opportunity to do their level 2 bike ability. Pupils had the chance to show instructors their skills and how to improve their skills to achieve their Bike-ability level 2 award.

This was a very fun time for many children as they were riding their bicycles around Carshalton. They were learning many things such as: turning round corners, checking our ABC (Air, Brakes, Chains) and many more!

The bike ability was a great opportunity and most children would love to do their level 3. We recommend doing this as it is a great chance for children to do something that they will enjoy and how to do it safely. It is also a great way to be active and is a great way of transport as bikes have no carbon emission. Overall, the participating children loved it and would like to do it again. *By Luke P, Zach P, Barun S and Luke Q*

A word from the teachers...

It has been a fantastic final term for Year 6. Each and every one of the children should be extremely proud of their effort and resilience this year.

We hope they can look back on their time at Stanley Park Junior School with a real 'Sense of Pride'. Enjoy a well-deserved rest over the summer and good luck with the next chapter. Come back and see us soon. The Year 6 team
